## OFFERING DESCRIPTION:

**Premiere Real Estate Group Inc. presents the exclusive opportunity to acquire 981 Halsey Street located in the prime neighborhood of Bushwick, Brooklyn.** The subject property is a single-story commercial building with two commercial units totaling 625 square-feet. The first store is a hair salon with a lease expiring in 3 years. The second store is a convenience store on a 5-year lease that started in November 2022. It is a fully renovated space with a full basement. It features a new storefront, new bathroom, new flooring and is freshly painted. Additional renovations made to the property include a new roof installation and a recent sidewalk replacement.

981 Halsey Street is ideally positioned within a prime and highly desirable commercial corridor of Bushwick and is just a half block away from the J subway station. Additionally, the building is located in a bustling area due to the convenient access to shopping and dining on Broadway.

## ZONING OVERVIEW

C1 & C2 (C1-1, C1-2, C1-3, C1-4, C1-5) & (C2-1, C2-2, C2-3, C2-4, C2-5) - C1-1 through C1-5 and C2-1 through C2-5 districts are mapped as commercial overlays within residence districts. They are mapped along streets that serve the local retail needs of the surrounding residential neighborhood, and are found extensively throughout the city's lower- and medium-density areas, and occasionally in higher-density areas.

Typical retail uses include grocery stores, restaurants and beauty parlors, catering to the immediate neighborhood. C2 districts permit a slightly wider range of uses - such as funeral homes and repair services - than C1 districts. In mixed residential/commercial buildings, commercial uses are limited to one or two floors and must always be located below the residential use.

When commercial overlays are mapped in R1 through R5 districts, the maximum commercial floor area ratio is 1.0; when mapped in R6 through R10 districts, the maximum commercial FAR is 2.0. Commercial buildings are subject to commercial bulk rules.

Overlay districts are distinct from other commercial districts in that residential bulk is governed by the residence districts within which the overlay is mapped. All other commercial districts that permit residential use are assigned a specific residential district equivalent. However, when residences are constructed in any commercial district, certain regulations that apply in residence districts are waived, such as front and side yard requirements. Unless otherwise indicated, the depth of overlay districts ranges from 100 to 200 feet.

Generally, the lower the numerical suffix, the more off-street parking is required. For example, in C1-1 districts, typically mapped in outlying areas of the city, a large food store would require one parking space for every 100 square feet of floor area, whereas no parking would be required in C1-5 districts, which are well served by mass transit.
