PROPERTY DESCRIPTION:

6.2 Acre Industrial Zoned Site located in Gateway Commerce Center. The park offers superior size, location, access, infrastructure, labor, amenities, and economic incentives. It is ideally suited for local, regional, and national warehouse and distribution users. At 2,300 acres, there is plenty of room to grow at Gateway, creating cost-efficiencies by accommodating expansion on-site. The property has plans for multiple spec building projects and existing allotments of space ranging from 100,000 to over 1,200,000 square feet. In addition, the park already has infrastructure in place to meet needs far into the future. Gateway provides high-capacity service for electric, natural gas, water, sewer, and telecommunications, making the park suitable for many different industrial uses. All roads in the park are designed to interstate standards, with 40-ton vehicle rating. St. Louis is one of the few regions nationwide that enjoys convenient access to four modes of transportation: road, rail, water, air. The availability of so many options provides the community with some of the lowest shipping costs in the country.
