PROPERTY OVERVIEW

College Plaza located on the Hard Corner of Central and Girard is under new ownership and has gone through a complete renovation as of 2024. This is a great opportunity to lease a 2,200 SF retail space in a bustling, recently remodeled retail center. Located on a prominent hard corner, this center boasts high visibility and excellent vehicular and foot traffic, making it the perfect location for either local or national retail/restaurant users alike. This center is one of few that has dedicated parking for tenants and employees at the center and is within 200' of an ART Bus station. Renovations included an entirely new face along with brand new TPO roofs.

Lease Rate:	\$24.00 - \$28.00 PSF
NNN:	\$6.50 PSF
Available SF:	900 - 2,240 SF 2nd Gen Restaurant
Year Renovated:	2024
Zoning:	MX-M
Submarket:	Nob Hill/UNM

LOCATION OVERVIEW

This recently renovated center is located along Central Ave (Rt 66) across from the University of New Mexico and at the entrance to Albuquerque's Nob Hill submarket. Both of these submarkets are known for their high density of rooftops as well as high daytime population. The center is 5 minutes to the nearest interstate exits and major regional hospitals, as well as 7 minutes from the Albuquerque Sunport.

COLLEGE PLAZA - UNM/NOB HILL RETAIL | 2820 Central Avenue SE Albuquerque, NM 87106

CCAT Center Construction Starting in 2025!

The University of New Mexico's new Center for Collaborative Arts and Technology (CCAT) is a transformative project aimed at modernizing and centralizing the College of Fine Arts (CFA) facilities. By consolidating 13 separate buildings into a state-of-the-art, multi-story facility, the CCAT will significantly enhance the efficiency, sustainability, and functionality of the college. With a projected cost of \$65 million for the first phase, the center will cover 62,100 square feet and feature key spaces including a concert/performance hall, maker spaces, art galleries, technical labs, and faculty research studios. This new hub will house a variety of disciplines such as Music and Theater, Art and Technology, and Fine Arts education.

One of the most pressing challenges the CFA currently faces is the absence of dedicated performance space, which is vital for maintaining accreditation standards and supporting enrollment growth. While UNM has performance venues such as Popejoy Hall, these are not always accessible for CFA use due to external programming priorities, such as Broadway tours. The CCAT will address this gap by offering modern rehearsal and performance spaces, supporting the growth of programs that are losing students due to inadequate facilities. This includes the highly ranked Master of Fine Arts programs in Photography and Studio Art, and the university's unique Flamenco degree program, which could be jeopardized without improved infrastructure.

Beyond its immediate impact on arts education, the CCAT is critical for UNM's recruitment and retention strategies. In order to remain competitive with other fine arts institutions in the Southwest, UNM must offer the kind of specialized spaces that attract top-tier faculty and students. The center will provide essential resources such as appropriate ventilation, lighting, acoustics, and sound systems that are tailored to each art discipline. This ensures that students receive the technical and practical training necessary for today's evolving creative industries, including film, digital arts, and media visualization.

Architect: Diller Scofidio + Renfro with Roma Architecture; Contractor: Bradbury Stamm Construction; Total Funding: \$82,135,428

Additionally, the CCAT will bolster interdisciplinary collaboration across the university. With the Bachelor of Arts in Interdisciplinary Arts (BAIA) being the fastest-growing degree in CFA, the new center will provide space for programs that integrate coursework across different creative disciplines. These programs will allow students from across the campus to engage with the arts, developing valuable skills that contribute to New Mexico's growing industries in film, television, online gaming, and streaming.

The long-term impact of the CCAT extends beyond the university, as it will strengthen UNM's role in growing the

creative arts workforce in New Mexico. The center will position the university to produce graduates who are well-prepared for roles in the expanding film, music, and digital arts sectors, driving innovation and economic growth in the region.

College Plaza is walking distance to UNM with its 23,000+ students on campus and thousands of faculty and staff.
