

WHAT TYPE OF STORAGE FITS YOUR LIFESTYLE?

Mini Warehouse

Looking for space to store your oversized equipment for your business? Or space for your tools and materials? Or how about a work vehicle? Our mini warehouse space is ideal for contractors, landscapers, roofers, or anyone needing space for their business needs.

Located directly off Loop 1604, in the Alamo Ranch area, our location is convenient and easy to access.

Climate Controlled

Why choose climate controlled storage over traditional storage? Protect your precious items from extreme temperature changes. Our climate controlled storage units give you peace-of-mind knowing your belongings are kept cool in the summer and warm in the winter.

Consider climate control for: artwork, pictures, electronics, documents, leather furniture, family heirlooms and other items that might be sensitive to extreme temperatures or conditions.

Mini Office

Our mini office spaces are ideal solutions for expanding a home office, starting a small business, or opening a satellite office. With a variety of sizes available, 90-day leases, and rates lower than traditional office spaces, our mini offices provide maximum flexibility and cost savings for any business.

Need extra storage space? As an added convenience, climate controlled units are available for rent located right behind your office space. Store extra inventory, documents, equipment and more within arms reach of your work space.

RV & Boat

We have the space you need to store your favorite recreational toys. At 1604 Store and More we can provide storage for all types of vehicles. Whether you're trying to maintain the integrity of a classic car, need a place close by for your RV, or need an off water home for your boat, we have several options to cover your vehicle, boat or RV storage needs.
