# EXECUTIVE SUMMARY

7748  
SANTA MONICA BLVD  
WEST HOLLYWOOD, CALIFORNIA

The retail component is structured on a NNN lease, shifting operating expenses to the tenant and providing predictable, low-management cash flow. Between the retail and residential components is a state-of-the-art creative office and patio area, offering an inspiring and flexible environment for an owner-user or tenant seeking a boutique workspace.

At the rear of the parcel is a detached two-story apartment unit consisting of a two-bedroom, one-bath layout. The unit is currently leased on a month-to-month basis and can be delivered vacant at closing, creating meaningful upside through renovation and repositioning to market rents.

The property is projected to generate \$153,174 in annual scheduled base rent, with average rents of approximately \$5.68/SF/month. The retail lease has approximately 6.66 years remaining, positioning the asset as a stable long-term investment with built-in income security and future growth potential.

The property benefits from prominent frontage along Santa Monica Boulevard with exposure to approximately 45K vehicles per day, as well as strong pedestrian traffic driven by the surrounding dense and affluent residential neighborhoods. Within a two-mile radius, average household income exceeds \$111,000, the population surpasses 164,000, and median home values exceed \$1.1 million. Within a five-mile radius, the population approaches 875,000 with similarly strong income demographics. The asset is further supported by a public parking lot located one block east of the property.

West Hollywood's retail and multifamily markets are characterized by high barriers to entry, strict zoning and development constraints, and consistently strong tenant demand, resulting in historically low vacancy rates. The Santa Monica Boulevard corridor in particular benefits from steady local spending, strong daytime traffic from commuters, and resilient retail fundamentals that continue to outperform broader Los Angeles market trends.

With its prime West Hollywood location, NNN retail income, creative office and patio component, and clear value-add opportunity through residential rent growth, 7748 Santa Monica Boulevard offers investors and users a rare opportunity to acquire a durable income-producing asset with upside in one of Southern California's most competitive and desirable retail corridors.

“The retail is on a NNN lease structure, shifting operating expenses to the tenant and creating predictable cash flow with minimal landlord management.”

# INVESTMENT HIGHLIGHTS

## ■ **Ideal Owner-User Opportunity :**

## ■ **Prime West Hollywood Location:**

Exceptional frontage along Santa Monica Boulevard, one of West Hollywood's primary commercial corridors connecting the city to Hollywood, Beverly Hills, Larchmont, Hancock Park, Melrose, Fairfax, and Century City. The property benefits from exposure to approximately 45,000 vehicles per day, strong pedestrian traffic, and excellent walkability to surrounding residential neighborhoods.

■ **Mixed-Use Asset with Diverse Income Streams:** ±2,247 SF mixed-use retail and residential building leased to Farm Coffee Cup and a residential tenant on a month-to-month basis. Farm Coffee Cup has occupied the retail space for over four years and has just under seven years remaining on its lease, demonstrating long-term commitment to the location. The five-mile radius population approaches 875,000, with similarly strong income levels and consumer spending power.

■ **High-Barrier-to-Entry West Hollywood Market:** West Hollywood's strict zoning regulations, limited commercial land availability, and sustained tenant demand have historically produced low vacancy rates, above-market rental levels, and strong long-term appreciation.
