TEXT HEADLINE

The site is composed of 5 properties for which 2 of them fronting Biscayne Blvd are in the Transect Zone T6-8 Open and 3 of the properties fronting NE 87th Street are in the Transect Zone T5 Restricted.

The two properties fronting Biscayne Blvd in the T6-8 Open Zone are allowed to have commercial uses such as restaurants, furniture stores, design shops, and offices to name a few of the acceptable uses. Construction can be built up to 8 stories and the intent of the zoning code is to create a medium height, continuous urban landscape with parking in the rear of the property

**TEXT HEADLINE**

The 3 properties fronting NE 87th Street in the T5 Restricted Zone is very limited in the permitted uses allowed on these sites. For instance, no commercial use would be allowed in the current zoning in the area. The intent of this zone is to promote residential uses and new public parking would have to be approved by an exception granted by the Planning, Zoning & Appeals Board at a public hearing.

There are several methods to join these properties together for which there are different time frames for approval or disapproval. The methods are: obtaining a Unity of Title or Covenant in Lieu of, gaining approval to rezone a portion of the site through the Planning, Zoning & Appeals Board, Approval of re-platting or an approval of encroachment into the right of way approved by the Director of Public Works and the City.
