In 1961, the Albrecht Family founded the world's first discount grocery store in Germany. For over 40 years their number one priority has been to deliver quality food at the lowest possible prices. ALDI looks at the world through these core values: simplicity to keep costs down, consistency in providing the highest quality products and responsibility in reducing their environmental footprint. They also partner with a wide variety of local farmers to offer an array of fresh and in-season produce, USDA choice meats, gluten-free and organic foods. Every week ALDI features exquisite deals on limited premium items such as seasonal decor, small kitchen appliances, gardening tools, new food items, and outdoor furniture.

- Best Value among US grocery stores
- More than 2,000 stores across 36 states with over 25,000 employees
- Generates over 380 million customers annually
- Over 90% of their ALDI products are tested before they make it to stores
