THE OFFERING

CBRE is pleased to exclusively offer for sale a 1,300 sf retail condo located at District 225. The condo sits below a 343-unit luxury residential building in the administrative and legal center of Downtown Miami. This impressive tower features fully furnished studio to two-bedroom condos, offering the flexibility to rent through Airbnb, creating consistent visitor traffic and built-in customer demand for ground-floor retail. The project sold out completely during pre-construction, making it an exceptional investment opportunity in Miami's emerging city center. The premises is being delivered in grey shell condition with underground plumbing in place for a future grease trap, utilities stubbed to the premises, including gas, and a fully poured slab. The space also features double height ceilings and prominent frontage along N Miami Avenue and NE 3rd Street. Designed to accommodate restaurant uses, the space would be ideal for a café, quick services restaurant or even a boutique market and/or retail.

The site is located in the heart of Downtown Miami, in between the newly opened Miami World Center and the historic Flagler Street which is currently undergoing a \$30 million Revitalization Project. Projections show that Downtown Miami's housing inventory is expected to increase by over 50% over the next three years. As of spring 2025, there were reportedly 30 active development projects in Downtown Miami, across residential, hotel, office and mixed uses — reflecting both the depth and breadth of ongoing growth there. Among the most recent high-profile completions is Aston Martin Residences — finished in 2024 and offering 391 luxury residences. The wave of brand-new, luxury residential units, such as Aston Martin Residences and the many under-construction buildings will significantly grow the "captive population" of Downtown Miami over the next 2–3 years. This means more potential customers living within walking or very short-ride distance of street-level retail. As supply is projected to rise by 50% within a few years, Downtown is likely to see increased density, population diversity (residents, short-term visitors, Airbnb occupants, etc.), and foot traffic, which boosts the value of retail with good frontage like District 225 has to offer.
