development team

David Inman has resided in Las Vegas since 1970. In 1984 Mr. Inman founded **Investment Equity, LLC** and began his career in commercial real estate development. He has developed ±4,000,000 square feet of commercial properties in both Las Vegas, NV and Phoenix, AZ which include a wide range of projects such as mixed use commercial, retail centers, finished & gray shell office buildings, industrial parks, apartment complexes and residential subdivisions. As a commercial developer he acquired, planned, designed and developed each of the properties to include, working with all third party consultants, governmental agencies, on/off site improvements, shell construction and tenant improvements. David holds the prestigious Certified Commercial Investment Member (CCIM) designation as a licensed real estate agent.

Architects

Avaruus Studios, Inc. is a Las Vegas Valley based architecture, planning & project management firm specializing in hospitality, commercial and retail projects. As a LEED accredited professional firm, ASI has the tools to provide sustainable design for any project. Whether a custom residence, a tenant improvement, or a stand-alone building. The principals have over 30 years of experience in their field and have developed over 1,000,000 square feet of commercial development with this developer.

Contractor

Founded in 1991, Bentar Development, Inc. is a well-established and respected design/build general contractor and professional manager of construction services. The award-winning company is owned by long-time Nevada resident, Amador “Chi Chi” Bengochea. Bentar is licensed and bonded in the State of NV with an unlimited contract limit & prides itself on aggressive schedules that are unmatched by other contractors in the local industry. The company delivers a wide range of commercial, industrial, retails, casino, office & recreational projects in the Las Vegas market.

Engineering

Lochsa Engineering, founded in 1995 in Las Vegas, NV by two University of Idaho graduates, is an innovative and value driven engineering, surveying, and BIM design firm. Named after the Lochsa River in Northern Idaho, Lochsa (pronounced lock-saw) means “rough waters” in the Native American Nez Perce language. It is with that spirit that Lochsa engineering chooses to navigate towards technically challenging projects while focusing on delivering creative and effective results. The firm has the experience and expertise to develop advanced and pioneering solutions for a sizable range of construction types.

Title Insurance Company

First American traces its roots to 1889, when Orange County, California. Our primary business is title insurance and settlement services, where we protect ownership rights for both the buyer and the lender—helping to facilitate the seamless exchange of property. You can think of a title search as a background check for real property. We work to uncover and resolve issues that would limit a new buyer’s right to own the property and to sell it in the future, and we insure against unknown issues or fraud that could show up later. We do this for a variety of property types including all types of residential, commercial, and industrial transactions.
