DRIVING EFFICIENCY

Our properties are designed to maximise efficiency, use lower-carbon materials and help reduce their long-term impact on the environment. For our customers this helps reduce energy use and achieve operational cost savings.

Delivered to a BREEAM 'Excellent' standard, Purfleet 343's market-leading specification includes the following features:

ENERGY-EFFICIENT DESIGN

- + LED lighting throughout
- + Smart metering
- + A+ EPC (-3)

ON-SITE RENEWABLES

- + 995kWp solar PV
- + SolarWall® thermal heating
- + Solar thermal hot water

ELECTRIC VEHICLE CHARGING

- + 12 EV charging points
- + Infrastructure for future EV fleets

WATER CONSERVATION

- + Rainwater harvesting
- + Water-saving taps and WCs

SUSTAINABLE LANDSCAPING

- + Ecologically diverse plants
- + Habitat cycle shelters to maximise biodiversity

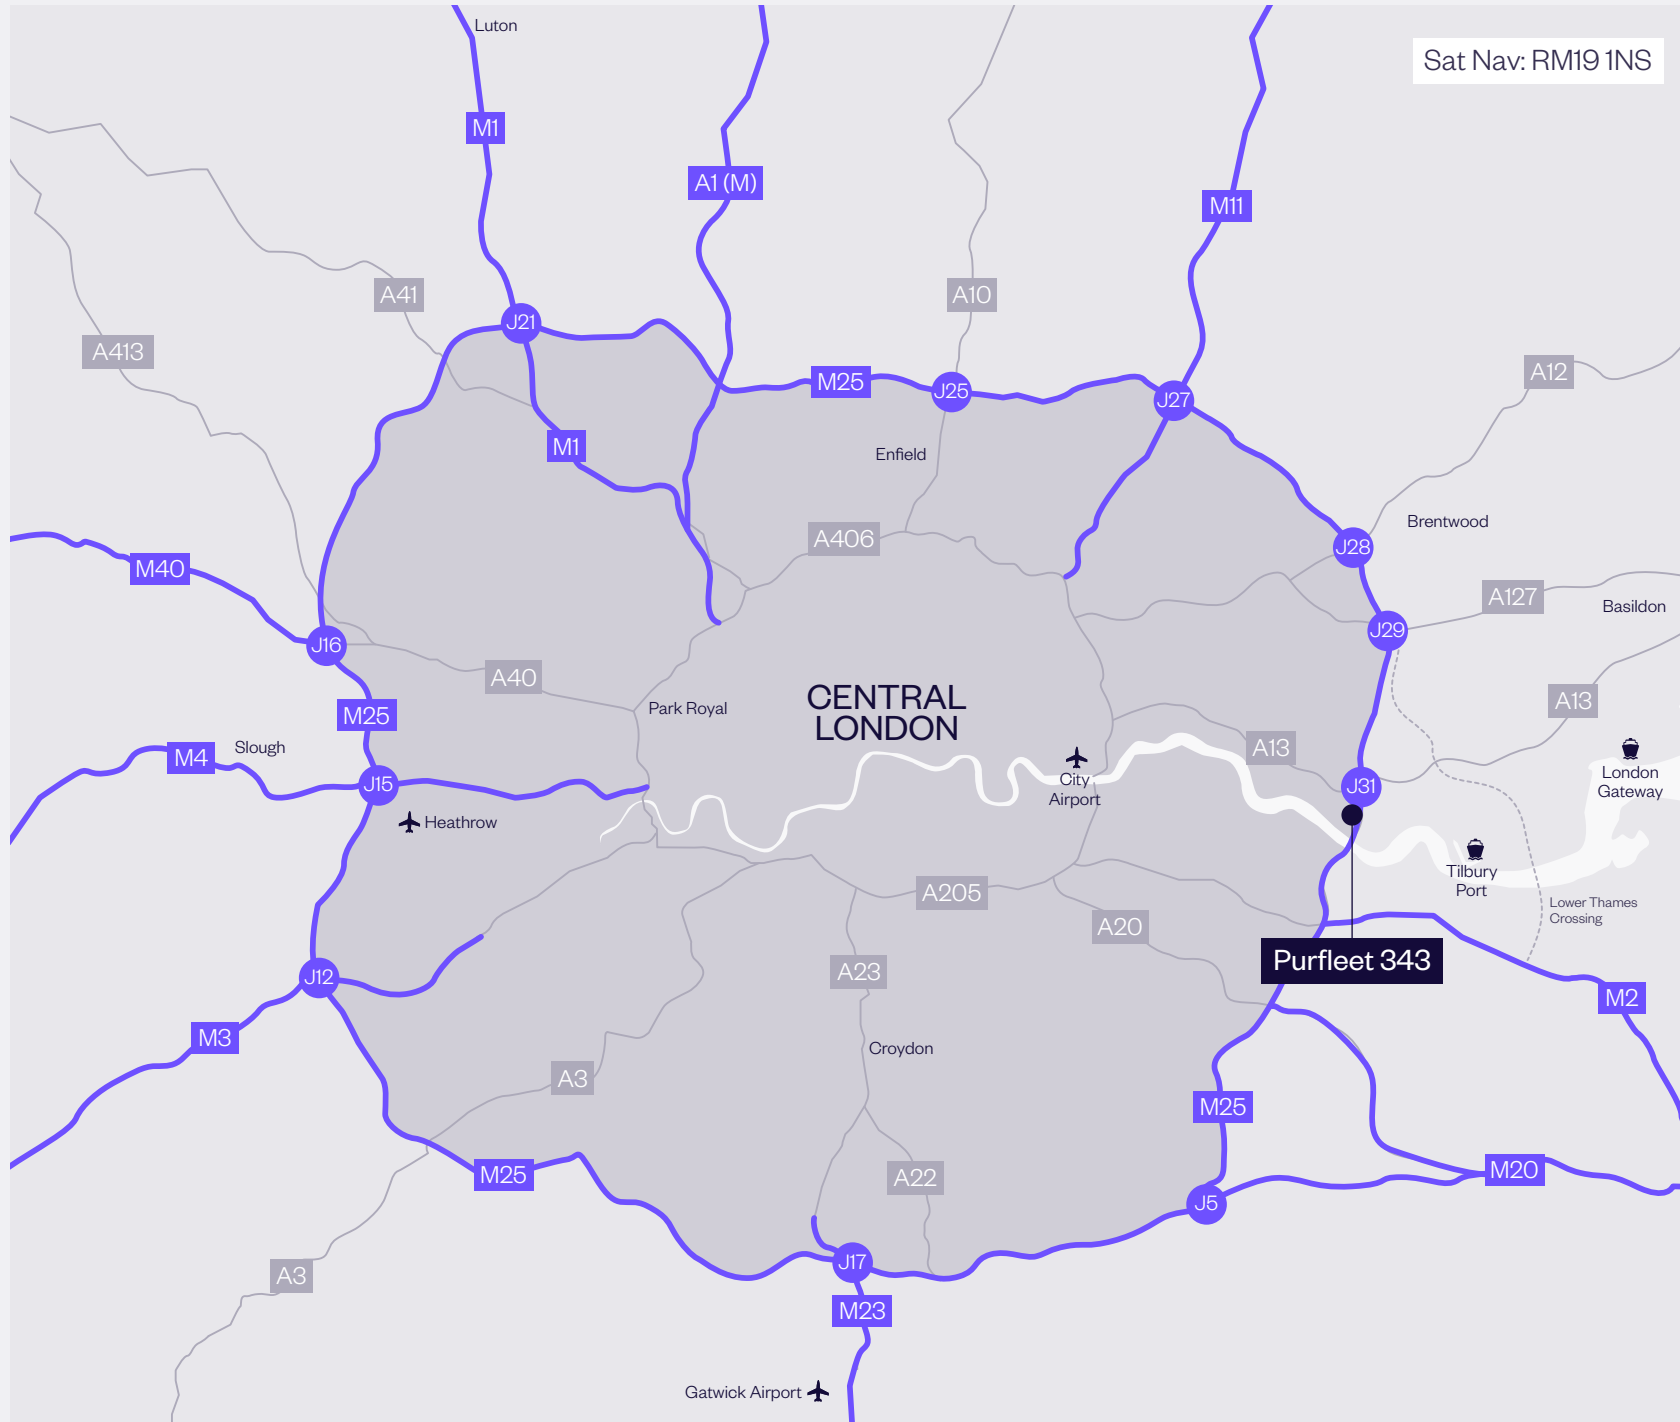

HEALTH AND WELLBEING

- + Bike storage
- + Shower facilities
- + Low VOC and VOC-free materials

LOCATION

Purfleet Commercial Park's position at the heart of the M25 and A13 corridors provides fast access to London and the South East, combined with excellent freight links and proximity to three international ports.

ACCESS

Purfleet Commercial Park can be accessed off Stonehouse Lane via the A1306. Only half a mile from J30/31 of the M25, it provides fast connections to the national motorway network with access to London (to the west), Essex (to the north and east) and Kent (to the south).

The area benefits from excellent public transport links, providing good accessibility for local labour. Purfleet Railway Station is on the c2c mainline and offers direct services to London Fenchurch Street within 30 minutes. The park is also served by the existing Route 44 bus service, which runs from Grays to Lakeside via Purfleet.

National Cycle Route 137 borders the development and provides links to National Cycle Route 13, allowing wider connectivity to London and the west.
