

Loblolly Pines NATIVE (Pinus Taeda) - 215 -

Queen palms (Syagrus romanzoffiana) - 50 -

Pheonix Sylvestris Palms - 1018 - could be as many as 250 that are not saleable....

Bismarckia nobilis pure silver - 271 - Excellent trees - huge and girthy!!

washingtonian - 50 with some real giants...

Paurotis Palm CLUSTERS - Huge specimens - 455 - these may be some of the biggest

available anywhere in Florida - perfect for landscaping by pools - they can bring \$3,000 - \$5,000 or more in some cases...less in others...

there are hundreds of loblollys that sprouted up on their own from 5 - 25 feet that can also be sold, especially since native trees are highly sought after...

the best trees are the Bismarckias, and the Paurotis Clusters..

i think if a serious grower came in they could seriously improve the value of every tree..
