**Forest Grove Trade Area**

Forest Grove lies just west of Hillsboro in one of the Portland Metropolitan Area’s fastest growing communities. The area recently experienced significant growth and development, transforming from a small agricultural community into a bustling city with a diverse economy. Fueled by the presence of technology giants like Intel, the area is a hub for innovation and high-tech industries. This influx of companies not only brought job opportunities, but also spurred infrastructure development, including new residential areas, commercial spaces, and improved transportation networks.
