HISTORY

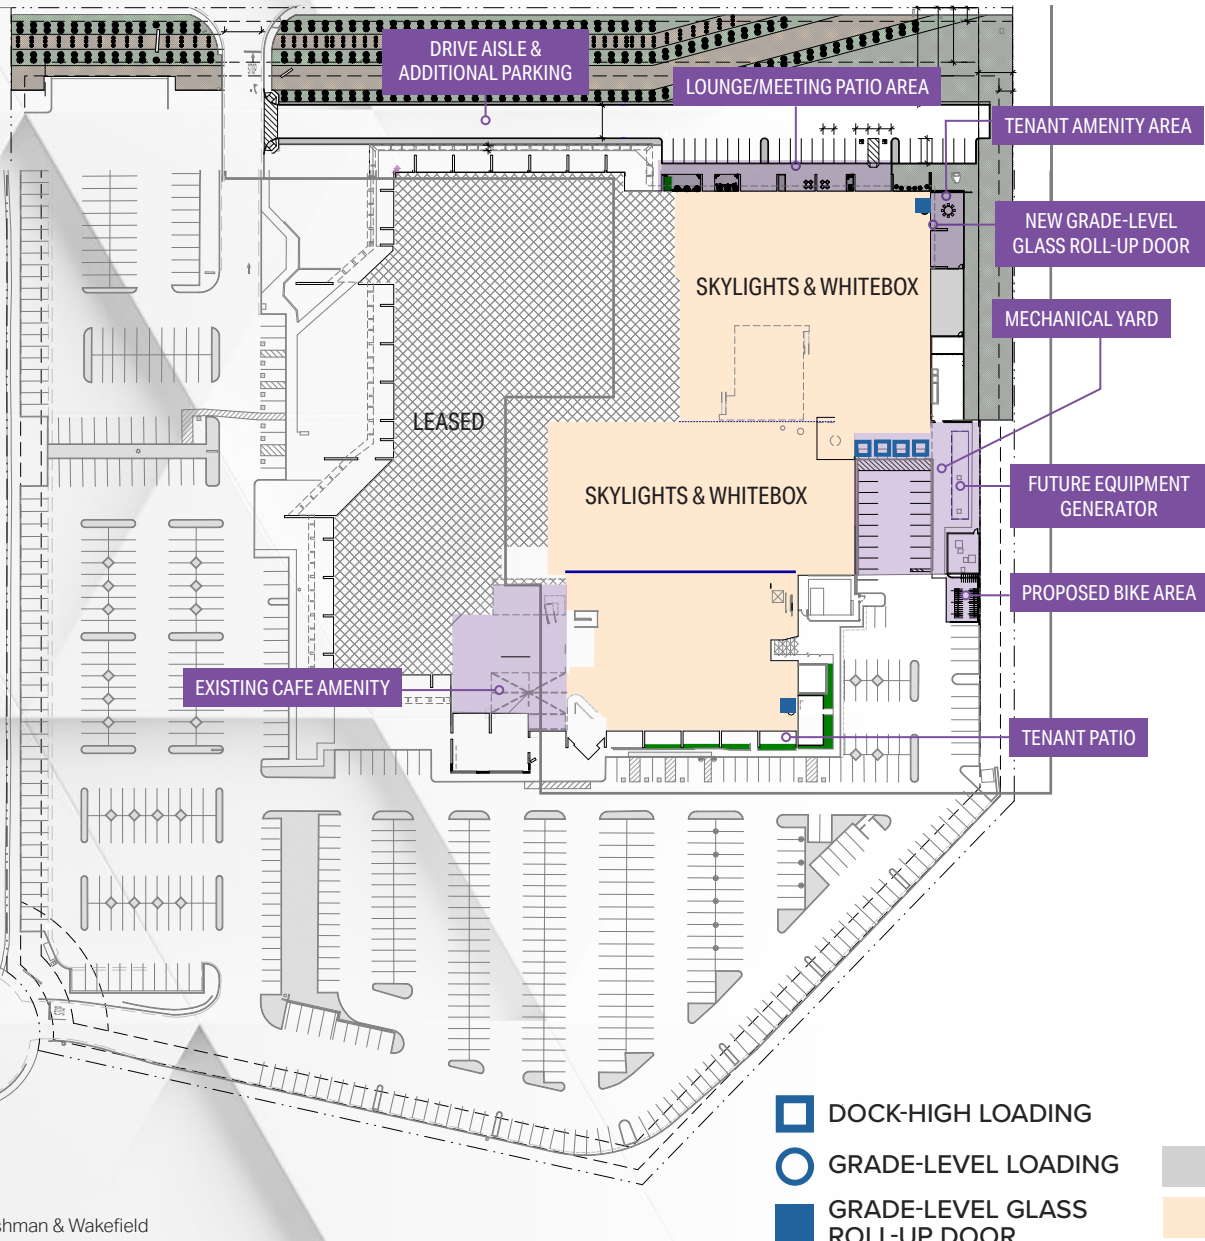

▼ TO HELP THE ▼ BRIGHTEST SHINE

When **FLIGHT** originally opened in the 1980s, those walking through its doors worked for the research and development division of the Hughes Aircraft Corporation, one of the most storied American companies in the fields of aviation and space exploration. It was designed with those men and women in mind — not only to attract them, but to inspire them to deliver their best. Today, it stands as a monument to the innovation and creation that's gone on within its walls.

SITE PLAN
