## C3.1 LAND USE STANDARDS

### A Permitted Land Uses

This section of the Downtown Code establishes the permitted land uses in each zone and the corresponding permit requirements. A parcel or building subject to the Downtown Code shall be occupied with only the land uses allowed by Table C3.1. Definitions of allowed land uses are provided in Section 12.0. If a land use is not defined in this section the Director may determine that the use is not permitted, or determine the appropriate definition and determine the proposed use to be permitted as set forth in Chapter 36.210.030, provided the Director makes the following findings in writing:

1. The land use will not impair the orderly implementation of the South Pasadena General Plan and Downtown Specific Plan Vision in Part A.
2. The land use is consistent with the purpose of the applicable zoning district.
3. The characteristics and activities associated with the proposed land use are similar to one or more of the listed land uses in Table C3.1, and will not produce greater impacts than the land uses listed for the zoning district.
4. The land use will be compatible with the other land uses allowed in the zoning district.
5. Any additional findings set forth in Chapter 36.210.030.A2.
