PROPERTY DESCRIPTION

445 S CHICAGO ST., LOS ANGELES, CA 90403

445 S Chicago St. is a well-maintained 6-unit apartment complex in the vibrant and revitalizing Boyle Heights neighborhood of Los Angeles. The property consists of two buildings: the front building with four 1-bedroom, 1-bath units (each with private patios) and the rear building with two large 1-bedroom units. One unit is vacant and recently renovated with modern amenities (washer/dryer, dishwasher, A/C), while the other five units are occupied, providing stable rental income.

With a 10%+ cap rate and an 8.10 GRM at market rents, this property offers substantial income potential. Five off-street parking spaces add to its appeal in this high-demand area. Located in a Tier 3 Transit-Oriented Communities (TOC) zone, there's potential for future development (buyer to verify) by increasing the bedroom count within existing units without needing additional parking.

Boyle Heights is a culturally rich neighborhood with strong community ties, great dining options, and easy access to the Arts District, Downtown LA, and public transit. The area's ongoing revitalization, with increasing investment in both residential and commercial properties, makes this property an attractive investment for long-term appreciation.

Priced below replacement cost, 445 S Chicago St. is a rare opportunity to acquire a multifamily asset with immediate rental income, significant growth potential, and a prime location. Ideal for both investors and owner-users seeking both financial returns and a thriving community, this property is positioned in a rapidly appreciating area. With its proximity to Downtown LA, the Arts District, and excellent public transit, it offers tremendous upside for long-term value and consistent cash flow.
