To Whom It May Concern:

The Guadalupe-Blanco River Authority's Stein Falls Wastewater Reclamation System (Stein Falls System) can provide sewer service for a proposed development on the approximate 15 acre Pustka Tract. The Pustka Tract is located in Guadalupe County, Texas west of Sunshine Lane and north of Union Wine Road as generally outlined on the attached map.

The prerequisite to any such sewer service will be the negotiation, completion, and execution of a wastewater service agreement to provide said sewer service to the Pustka Tract. In addition, sewer service to the Pustka Tract will require the development's construction of the necessary wastewater collection system and interconnection to the Stein Falls System including the possible GBRA required oversizing of certain system components.

Sincerely yours,

Darrell Nichols
