4.3.3 USE-SPECIFIC STANDARDS

4.3.3.1 GENERALLY

- A. Use-Specific Standards:** Conditional uses and some special exception uses have use-specific standards, the existence of which is noted in the last column of the Table of Primary Uses. These regulations apply to all zoning districts unless otherwise specified.

Additionally, the following use-specific standard applies to all conditional and special exception uses, unless a different standard called *Road Capacity* is listed for a particular use.

- 1. Site and emergency access:** All conditional and special exception uses must have adequate road capacity available to serve the use. Additionally, the use must be designed to ensure safe ingress onto and egress from the site, safe road conditions around the site, and adequate access onto the site for fire, police, and emergency medical services.

- B. How to Measure Separation Requirements:** Some uses are required to be separated a specified distance away from other uses or zoning districts. The measurement rules for the separation requirement are as follows.

- For the following specified uses, the separation requirement will always be measured from lot line to lot line. These uses are not eligible to reduce the separation requirement by any mechanism.

- Adult Entertainment
- Bars & Nightclubs
