The East Bay area is one of the most sought-after industrial locations in Northern California with over 150,000,000 SF of product. It accounts for almost a third of all industrial tenant activity across Northern California. The Oakland submarket is particularly desirable as it provides unmatched access to the Bay Area. This property marks an extremely rare opportunity in a market with vacancy levels close to historic lows. It represents the only 7+ acre property available within 15 miles of the Port of Oakland. 4709-4715 Tidewater Ave is a rarely available low coverage site in the East Bay Market. The property is an ideal fit for container storage and related uses.
