National Realty Commercial Associates is excited to offer 0.78 acres of vacant commercial land, ideally situated on a busy stretch of US Highway 1 in Fort Pierce. With 150 feet of prime frontage, this site is perfect for a wide range of commercial uses, thanks to its General Commercial Zoning.

Located next to AutoZone, this property presents a great opportunity for an auto service shop or other automotive-related business. The area is surrounded by high-traffic destinations, including fast food restaurants and a nearby strip mall anchored by a grocery store, making it a highly desirable location for development.

With flexible zoning and a prime location along US-1, this site is poised for commercial success.
