

Inside the IO Suite

First impressions come easy with a premier and modern eleven-story Class A office building featuring a grand entrance canopy, street-level granite façade, a lobby with terrazzo stone flooring, and 24-hour concierge services. Natural light is plentiful, with generous ceiling heights and window lines that also emphasize the beautiful panoramic views of the city. Our penthouse suite is adorned with tasteful furnishings and modern technology and complimented by warm wood finishes. IO's smaller, more intimate footprint creates a true sense of community -- friendly and welcoming. Upon becoming an IO member, companies receive much more than a premier address or workspace -- they benefit from a personal experience.
