# Market Drivers - HOUSE by Shigeru Ban

## BIOPHILIC 'HOUSE'

YAKOL Capital, in collaboration with renowned Japanese architect Shigeru Ban, is planning an “attainable” condominium development in Miami-Dade County. The project, called House, will feature 320 residential units priced at approximately \$1,100 per square foot, with entry-level homes starting in the low \$300,000s.

Construction is expected to begin in 2026. The development will offer a potential pathway to U.S. residency for investors through the EB-5 visa program. Designed with a strong focus on sustainability and wellness, House will incorporate biophilic architecture—an approach that fosters a deeper connection between residents and the natural environment.

YAKOL Capital describes the design as one that enhances quality of life by integrating nature into everyday living. An image shared by the developer showcases the lush, nature-forward vision behind the project.

The 1.16-acre development site, located at 237 N.E. 54th Street, Miami, FL 33137, was acquired in 2023 for \$6.57 million by Toussaint Ateliers Residences. The site—currently occupied by a 1965-built low-rise multifamily property—is situated in a Qualified Opportunity Zone and carries a T5-O zoning designation.

House is just one of several projects in YAKOL Capital’s growing South Florida portfolio. The developer is also advancing a major mixed-use development spanning 700,000 square feet, which will include residential units and ground-floor retail. That project is being designed in partnership with acclaimed Dutch architecture firm MVRDV.
