Cedar City Airport

The Cedar City Airport (CDC) is conveniently located in the heart of Southern Utah, giving visitors quick access to The Mighty 5 national parks along with many national monuments, state parks and recreational areas.

The airport offers flights through Delta and daily flights to Salt Lake City via SkyWest Airlines. It also offers car rental services through AVIS/Budget and Enterprise, and the area offers numerous lodging options, from luxury hotels to Airbnb and rustic cabin retreats, maximizing visitors time in the area.

CDC is currently undergoing a 10-month \$5.2 million expansion. Improvements will upgrade the airport security system and add a new passenger gate, baggage claim roller system, passenger screening machine, and quadruple the seating capacity past the security checkpoint.

The expansion began in May 2024 and scheduled to be completed in early 2025. The airport has continued to run during the project and hasn't experienced any major impact or flight interruption.
