Why Reno/Sparks

Economic Market Overview

The Reno/Sparks MSA has evolved over the years and while tourism, gaming, and hospitality are still staples of the local economy, Reno is emerging as a tech hub and pioneer in new technology and clean energy. Apple's \$1.0B data center is continuing to expand and is poised to be powered 100% by renewable energy sources. Tesla's Gigafactory \$10.0B announcement opened the floodgates after Apple's investment in the region, forging the way for Google and Switch to follow. These large announcements were also influenced by the existing presence of Intuit, Microsoft, Amazon, Ebay and others. Recently Redwood Materials, Dragonfly Energy, American Battery Technology, Lithium American, and Webstaurant have entered the market bringing significant employment growth.

Projected Growth: The Reno airport's catchment area has a population of 1.5M as of 2023 per the Reno-Tahoe Airport Authority. According to the Economic Development Agency of Western Nevada (EDAWN), since Tesla's announcement, actual population and job growth have outpaced initial projections. An additional 9,000 homes per year are needed in the region to keep up with growth.
