NEIGHBORHOOD

THE

Located in the Heart of Central Florida, Plant City has a rich history dating back to the mid-1800s when settlers first began to populate Florida. Plant City was incorporated in 1885, 16 years after the state was chartered. Plant City derives its name not from the surrounding agricultural industry which greatly added to the city's growth, but from Henry Bradley Plant.

The City of Plant City is geographically located in the middle of the west coast of Florida, approximately 25 miles east of Tampa, immediately west of Lakeland, and 70 miles west of Orlando. Plant City is located in northeast Hillsborough County, which is the fourth largest county in Florida.

The City limits comprise 28.43 square miles, and include 38,938 residents as of the latest population estimate. The City has adopted the theme of "Embracing the Future, While Preserving the Past" as it captures the residents desire to adapt and plan for expected growth, while protecting the enduring assets and hometown charm of Plant City.

Plant City has grown significantly over the past 10 years with the current population of 40,530 expected to increase to over 71,000 by the year 2040. The enormous projected growth presents opportunities for new housing, businesses, and recreation for existing and future residents.
