PROPERTY OVERVIEW

Location

0042 Old Amston Road,
Colchester, CT 06415

Total Campus Size

17+/- acres

Lease Terms

Ground lease at \$1/year

Power Purchase Agreement (PPA)

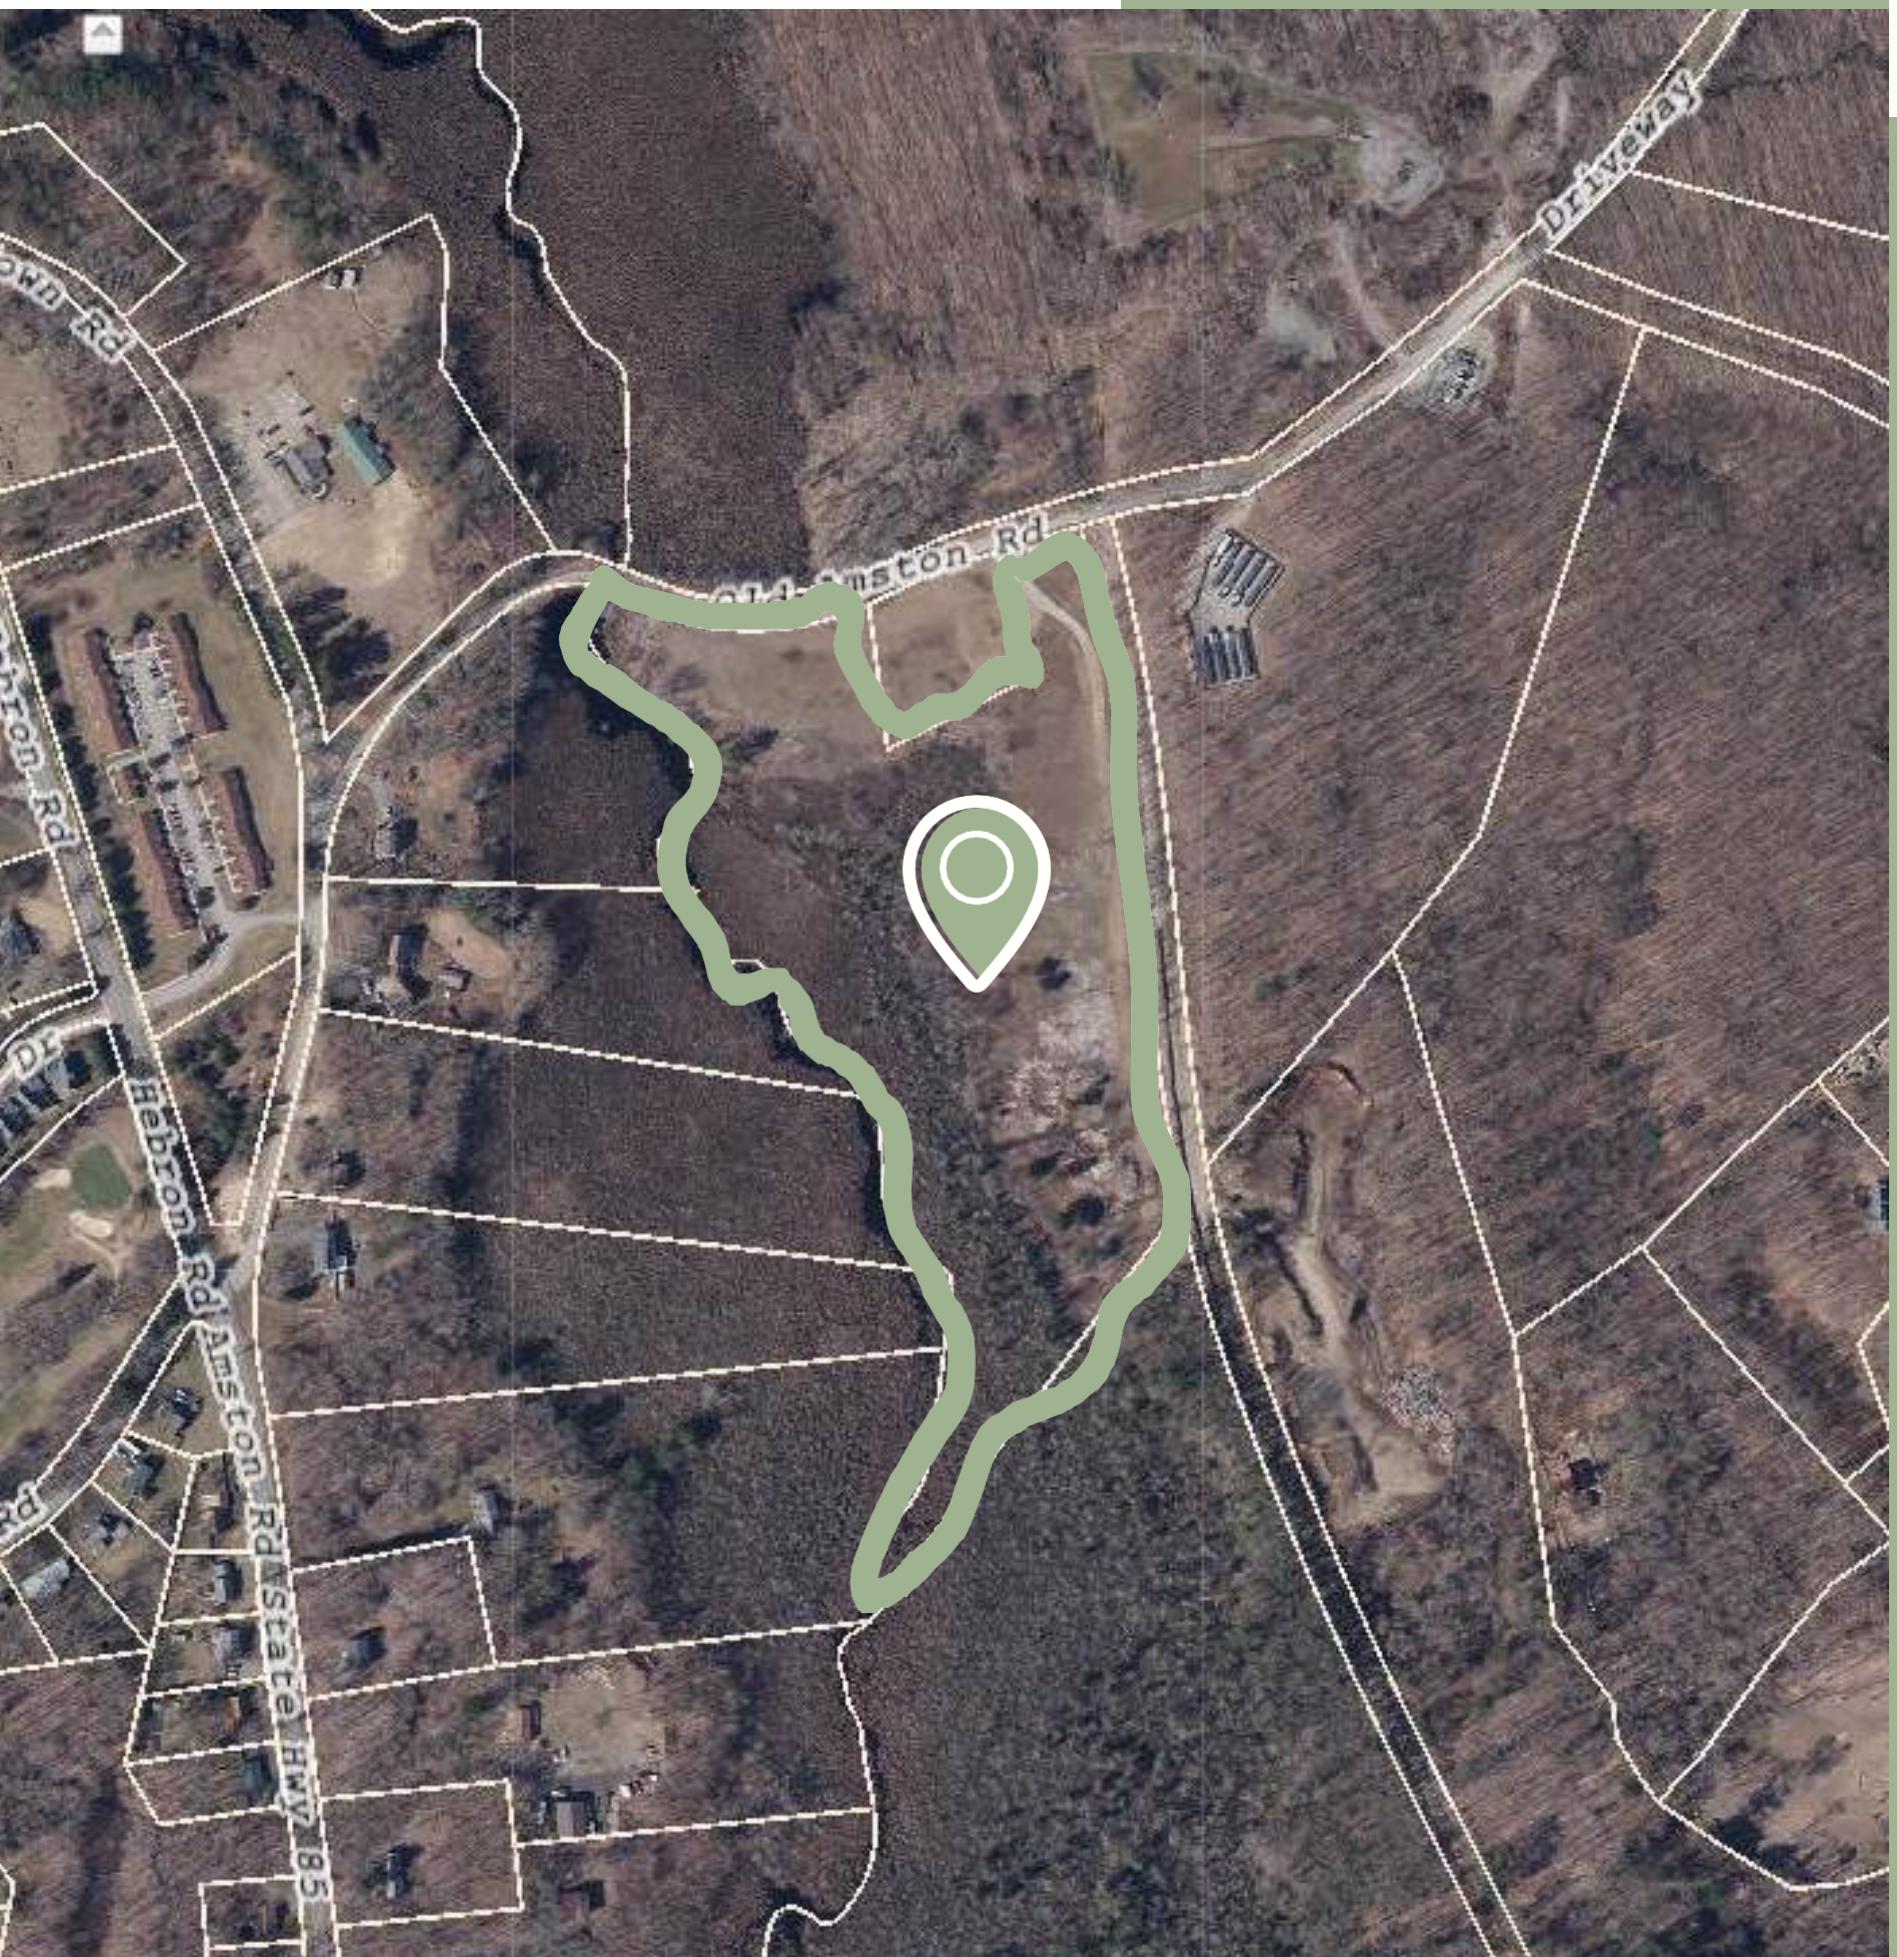

Starting at \$0.15/kWh, escalating at 3% annually

Available Space

40,000 sq. ft. data center pad (expandable to
80,000 sq. ft. with a second floor)

Power Capacity

10 MW (with another 8 MW expansion available)
on-site power generation facility, permitted for natural
gas-fed Bloom Energy fuel cells, With CO2 Capture

KEY HIGHLIGHTS

Speed-To-Market

Behind-The-Meter

Fully approved by the Connecticut Siting Council for behind-the-meter power generation.

Shovel-Ready

Shovel-ready site with all necessary power permits secured, enabling rapid deployment.
Build-to-suit traditional and modular construction is possible.

Connectivity

Fiber

Carrier-neutral with Spectrum, Verizon, Frontier, Crown Castle, and Nutmeg Network.

Latency

Sub-3ms latency to Tier 1 markets like New York City, Boston, Hartford, and Providence.

Cost Savings

Energy Cost Advantage

Local grid rates average \$0.24/kWh (supply + delivery + public benefits charges). The PPA offers a significant discount, translating to potential annual savings of \$10M+ for operators.

Tax Incentives

Eligible for Connecticut's 20-30-year data center tax exemption programs, including sales, property, and financial transaction tax exemptions.

Sustainability

On-site natural gas-fired sustainable generators (e.g., fuel cells), with CO2 captured. We send waste heat and stormwater from the power facility to a colocated hydroponic farm to donate fresh produce to local charities.

SITE FEATURES

Power Infrastructure

On-Site Generation

10 MW microgrid power facility, (with another 8 MW expansion available)

Reliable Supply

Natural gas-fired generators ensure consistent and sustainable energy. Redundant power options are available to the tenant.

Scalability

Seller has more land in the area permitted for on-site behind-the-meter power generation, thus providing expandable power capacity to meet future demands.

Connectivity

Fiber Providers

Spectrum, Verizon, Frontier, Crown Castle, Nutmeg Network, and other carrier-neutral options.

Latency

Hartford, CT: 0.5ms RTT
Boston, MA: 2.08ms RTT
Providence, RI: 1.22ms RTT
New York City: 1.5ms RTT

Infrastructure

Public Utilities

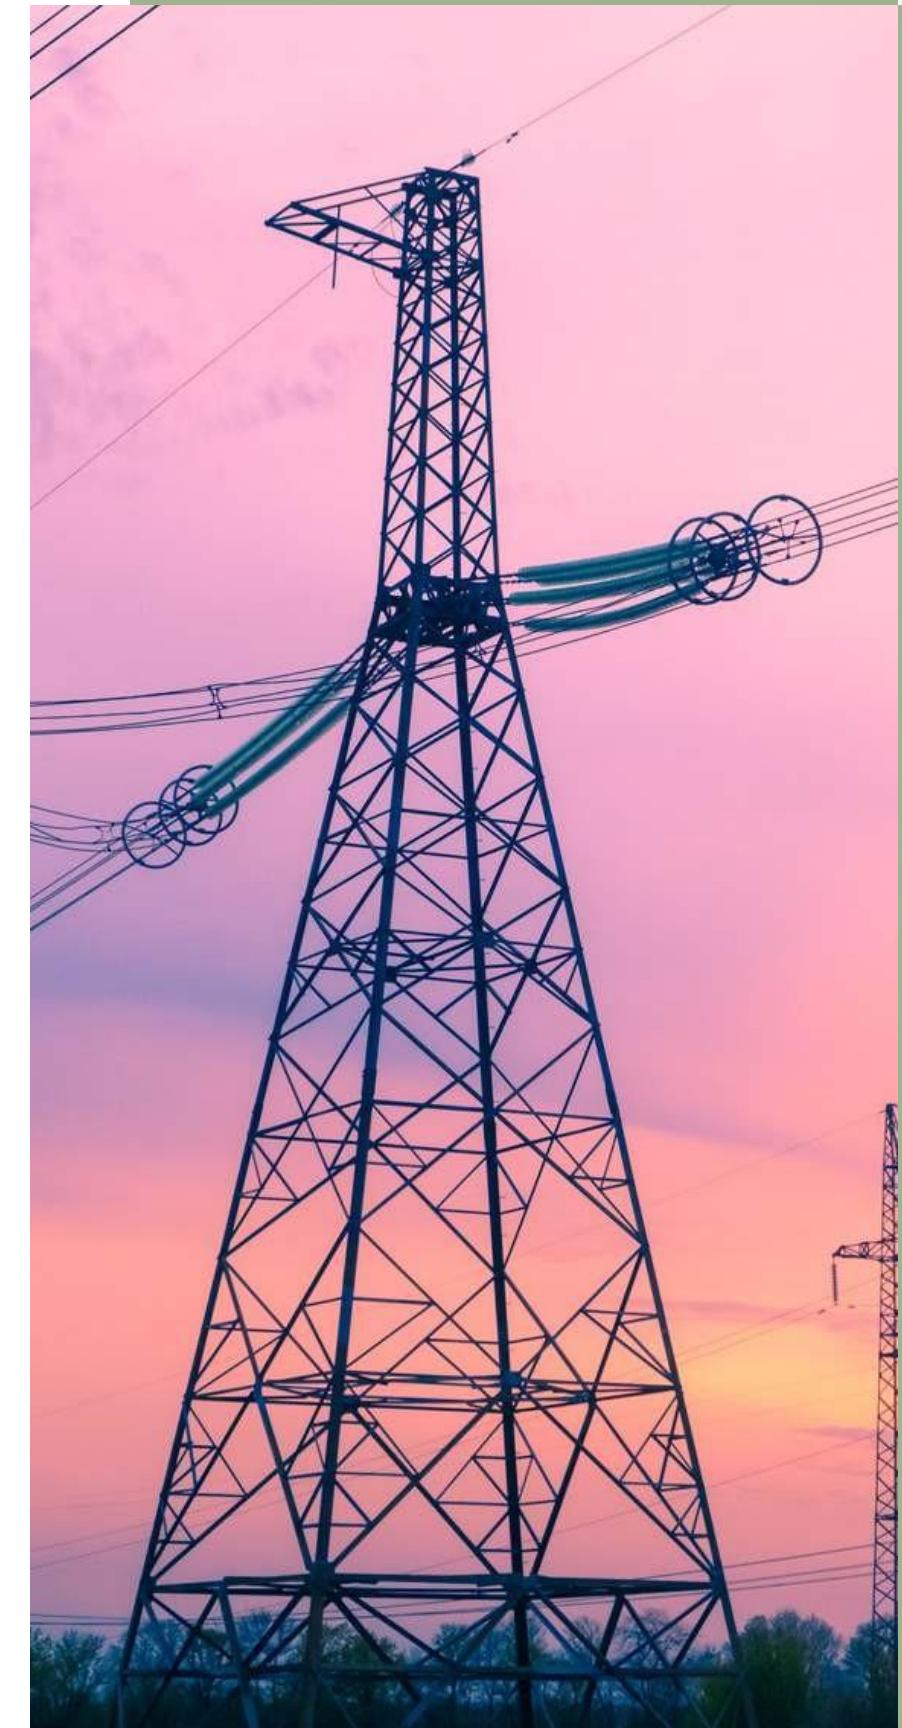

Access to public water and Yankee Gas. Septic and well can be added on-site.

Stormwater Management

Grass-lined basins and underground infiltration systems.

Security

Perimeter fencing, gated access, and 24/7 monitoring options.

Phase 1

- Leased up data center pad and Power PPA, with construction starting.

Phase 2

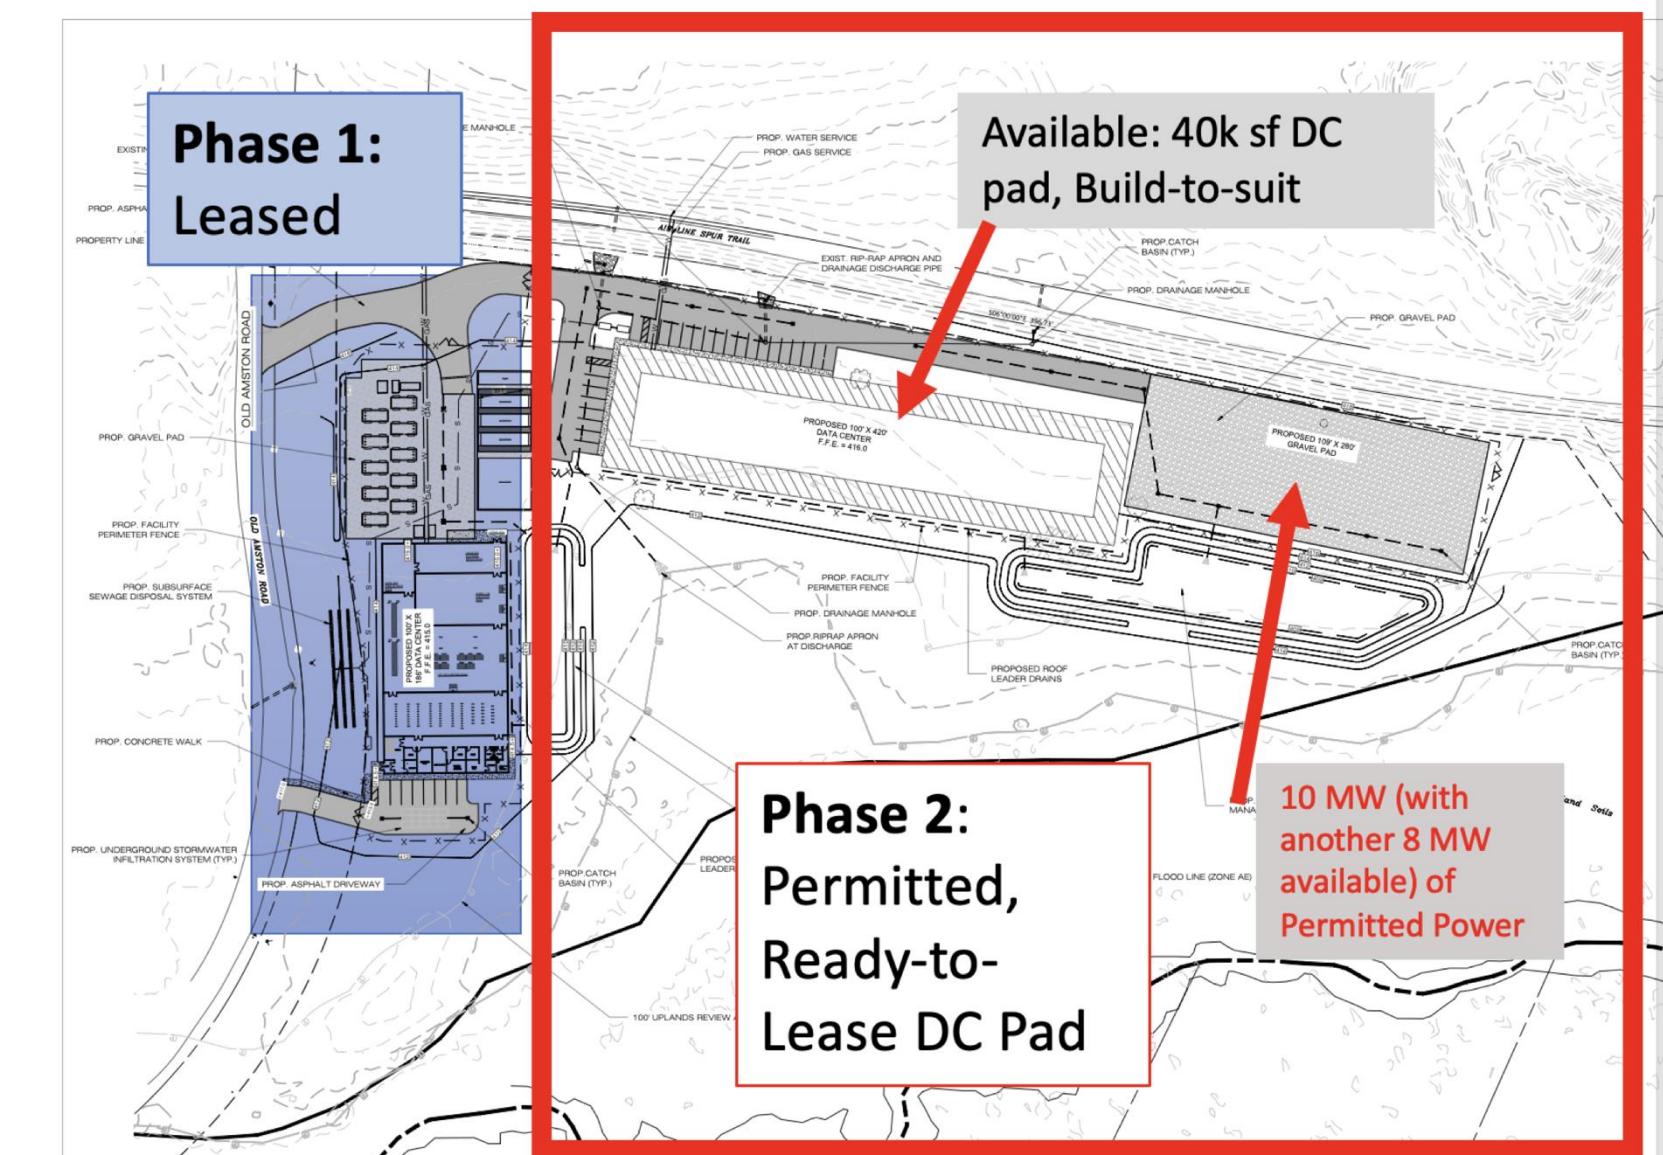

- Data Center pad available for Lease. Build-to-Suit:**
 - 40,000 sq. ft. data center pad (expandable to 80,000 sq. ft.).
 - Adjacent to the fully permitted, 10 MW on-site power generation facility, (with another 8 MW expansion available)

Build To Suit

17+/- acres

DEVELOPMENT PLAN

STRATEGIC LOCATION

Address

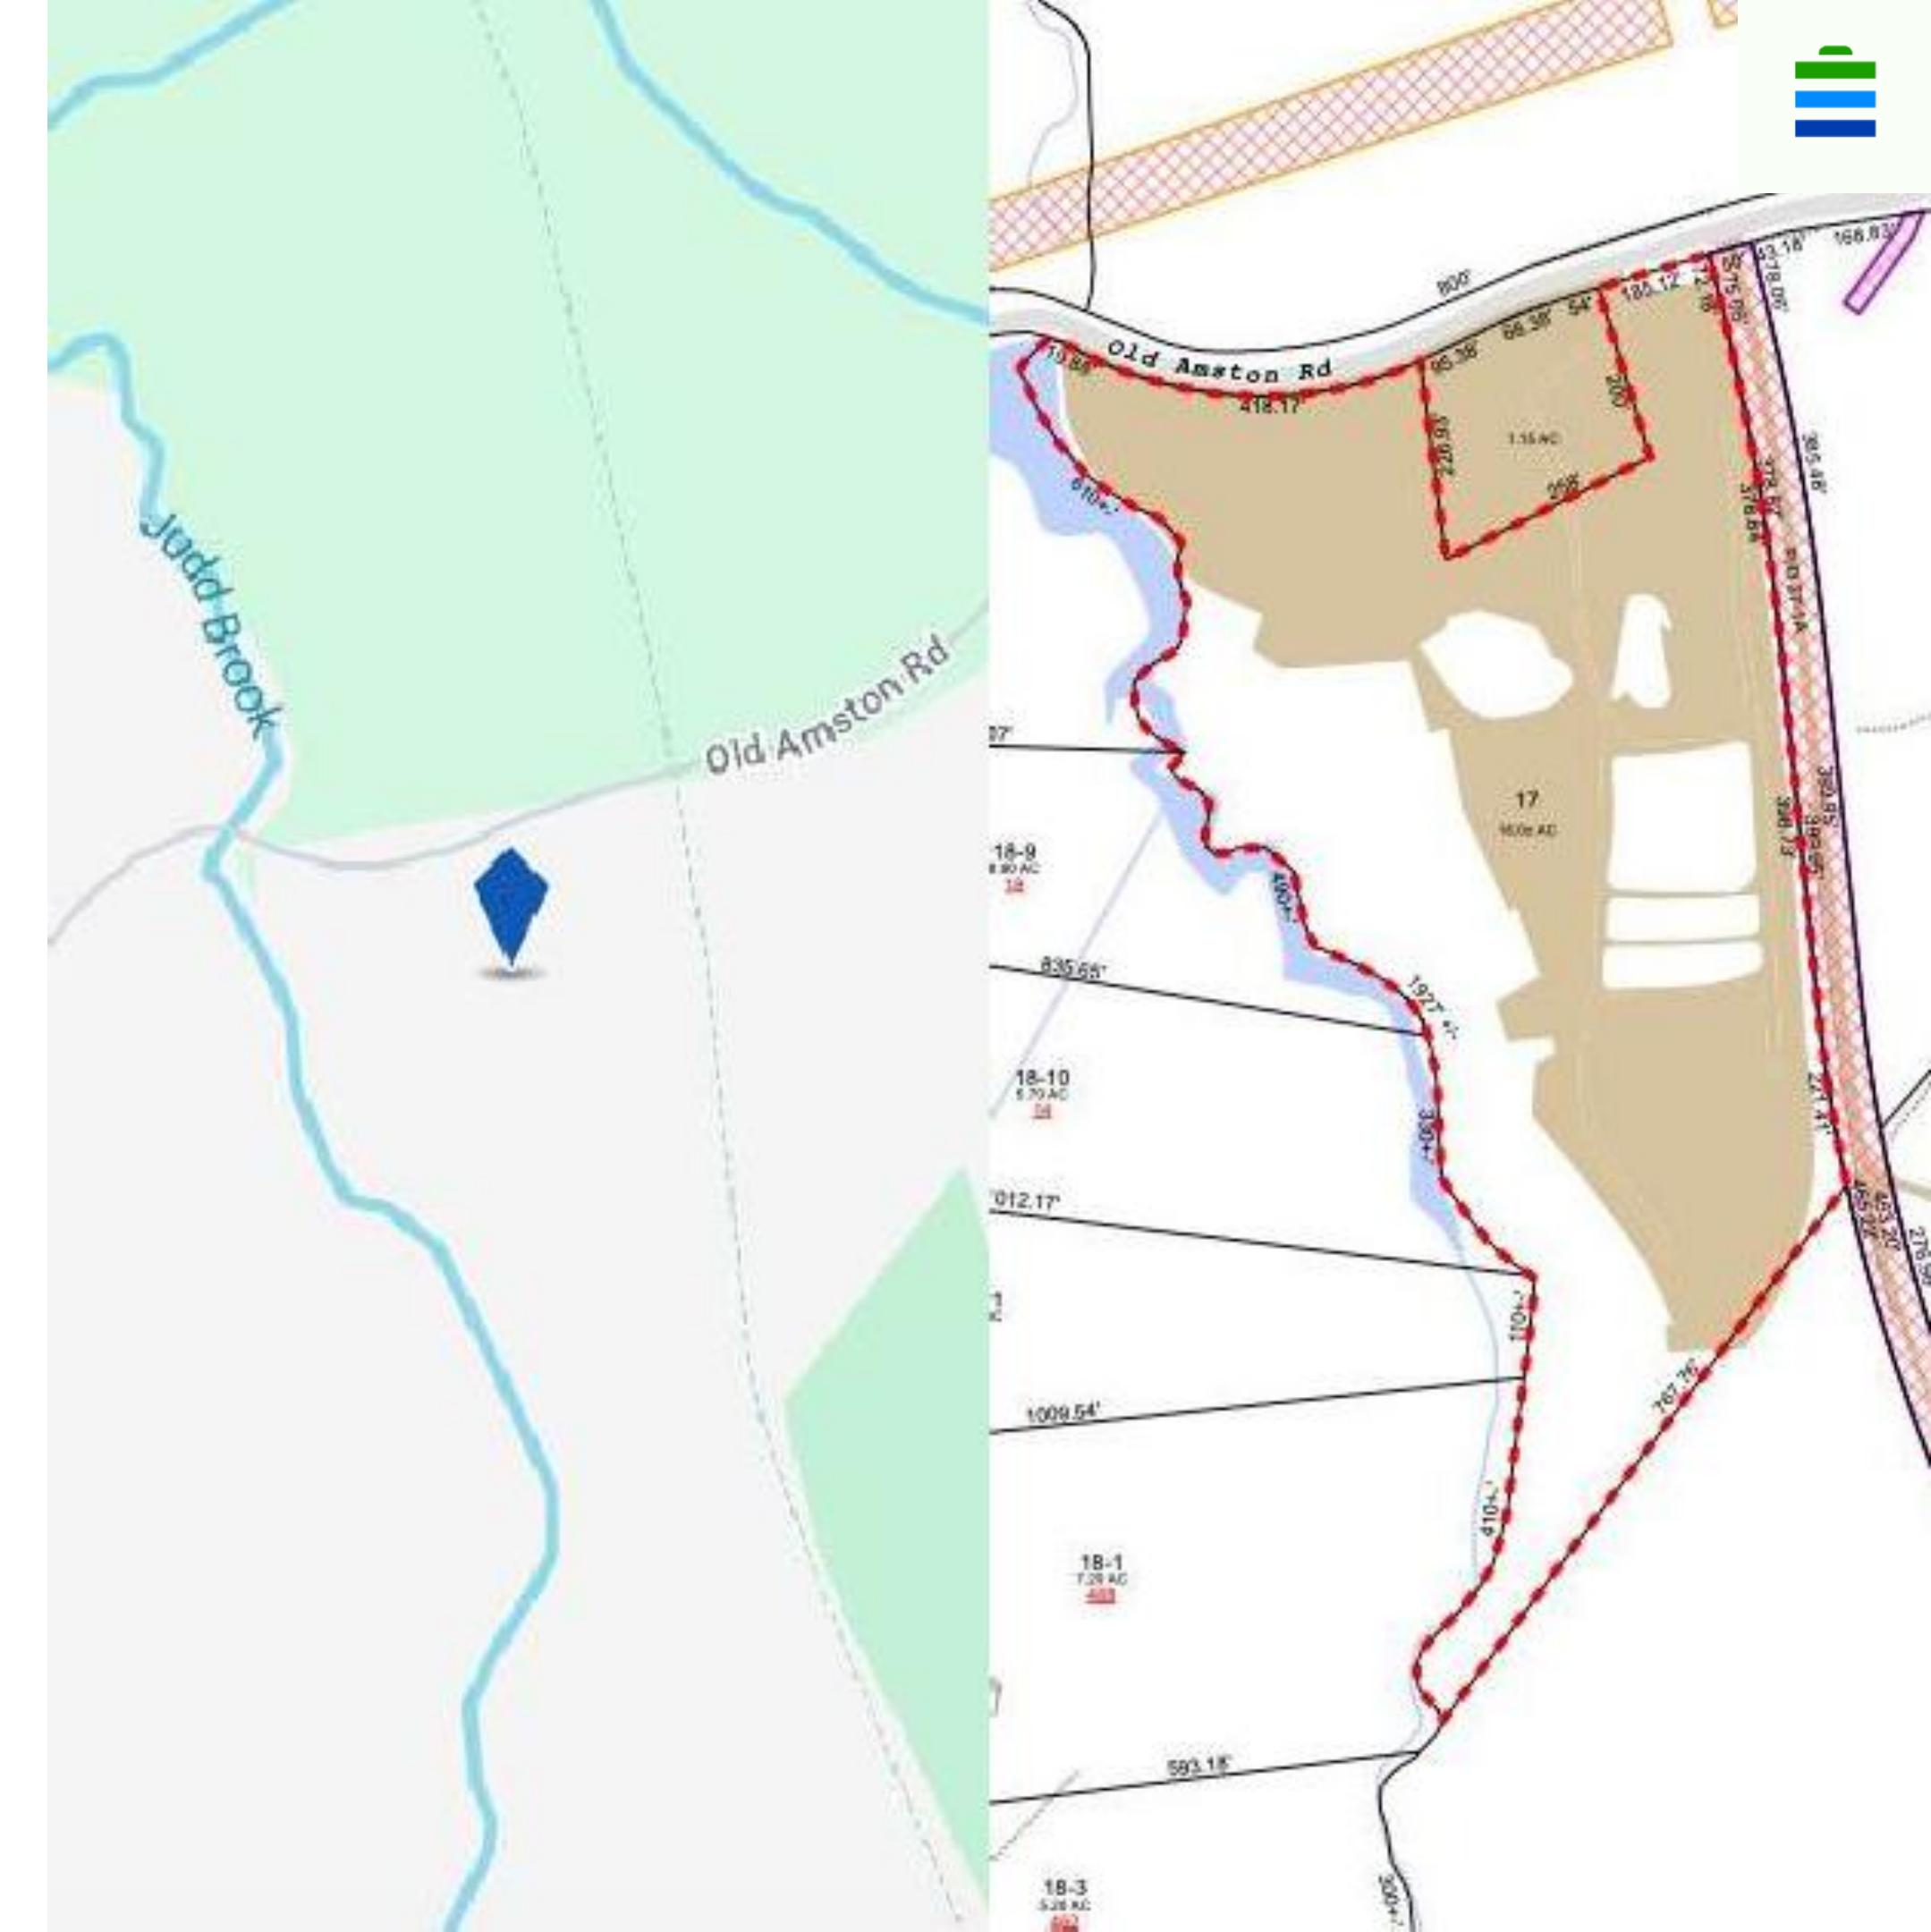

0042 Old Amston Road, Colchester, CT 06415

Proximity To Major Markets

-  Hartford, CT: 25 Miles
-  Boston, MA: 104 Miles
-  Providence, RI: 61 Miles
-  New York City: 145 Miles

Transportation Access

- Easy access to I-91 and I-95 corridors.
- Close to major airports and rail lines.

SUSTAINABILITY COMMITMENT

Accelerating Sustainable Energy

The site can be dedicated to accelerating the green economy through sustainable energy solutions. If the tenant desires, the Amston Data Center campus can incorporate:

- Renewable Natural Gas (RNG)
- Rooftop Solar and Carbon Capture System
- Battery Storage
- Heat and Water Recycling

WHY CHOOSE COLCHESTER, CT?

Unmatched Cost Savings

\$1/year ground lease, and save millions of \$ on power vs. the grid.

Speed-To-Market

Fully permitted on site power and shovel-ready site.

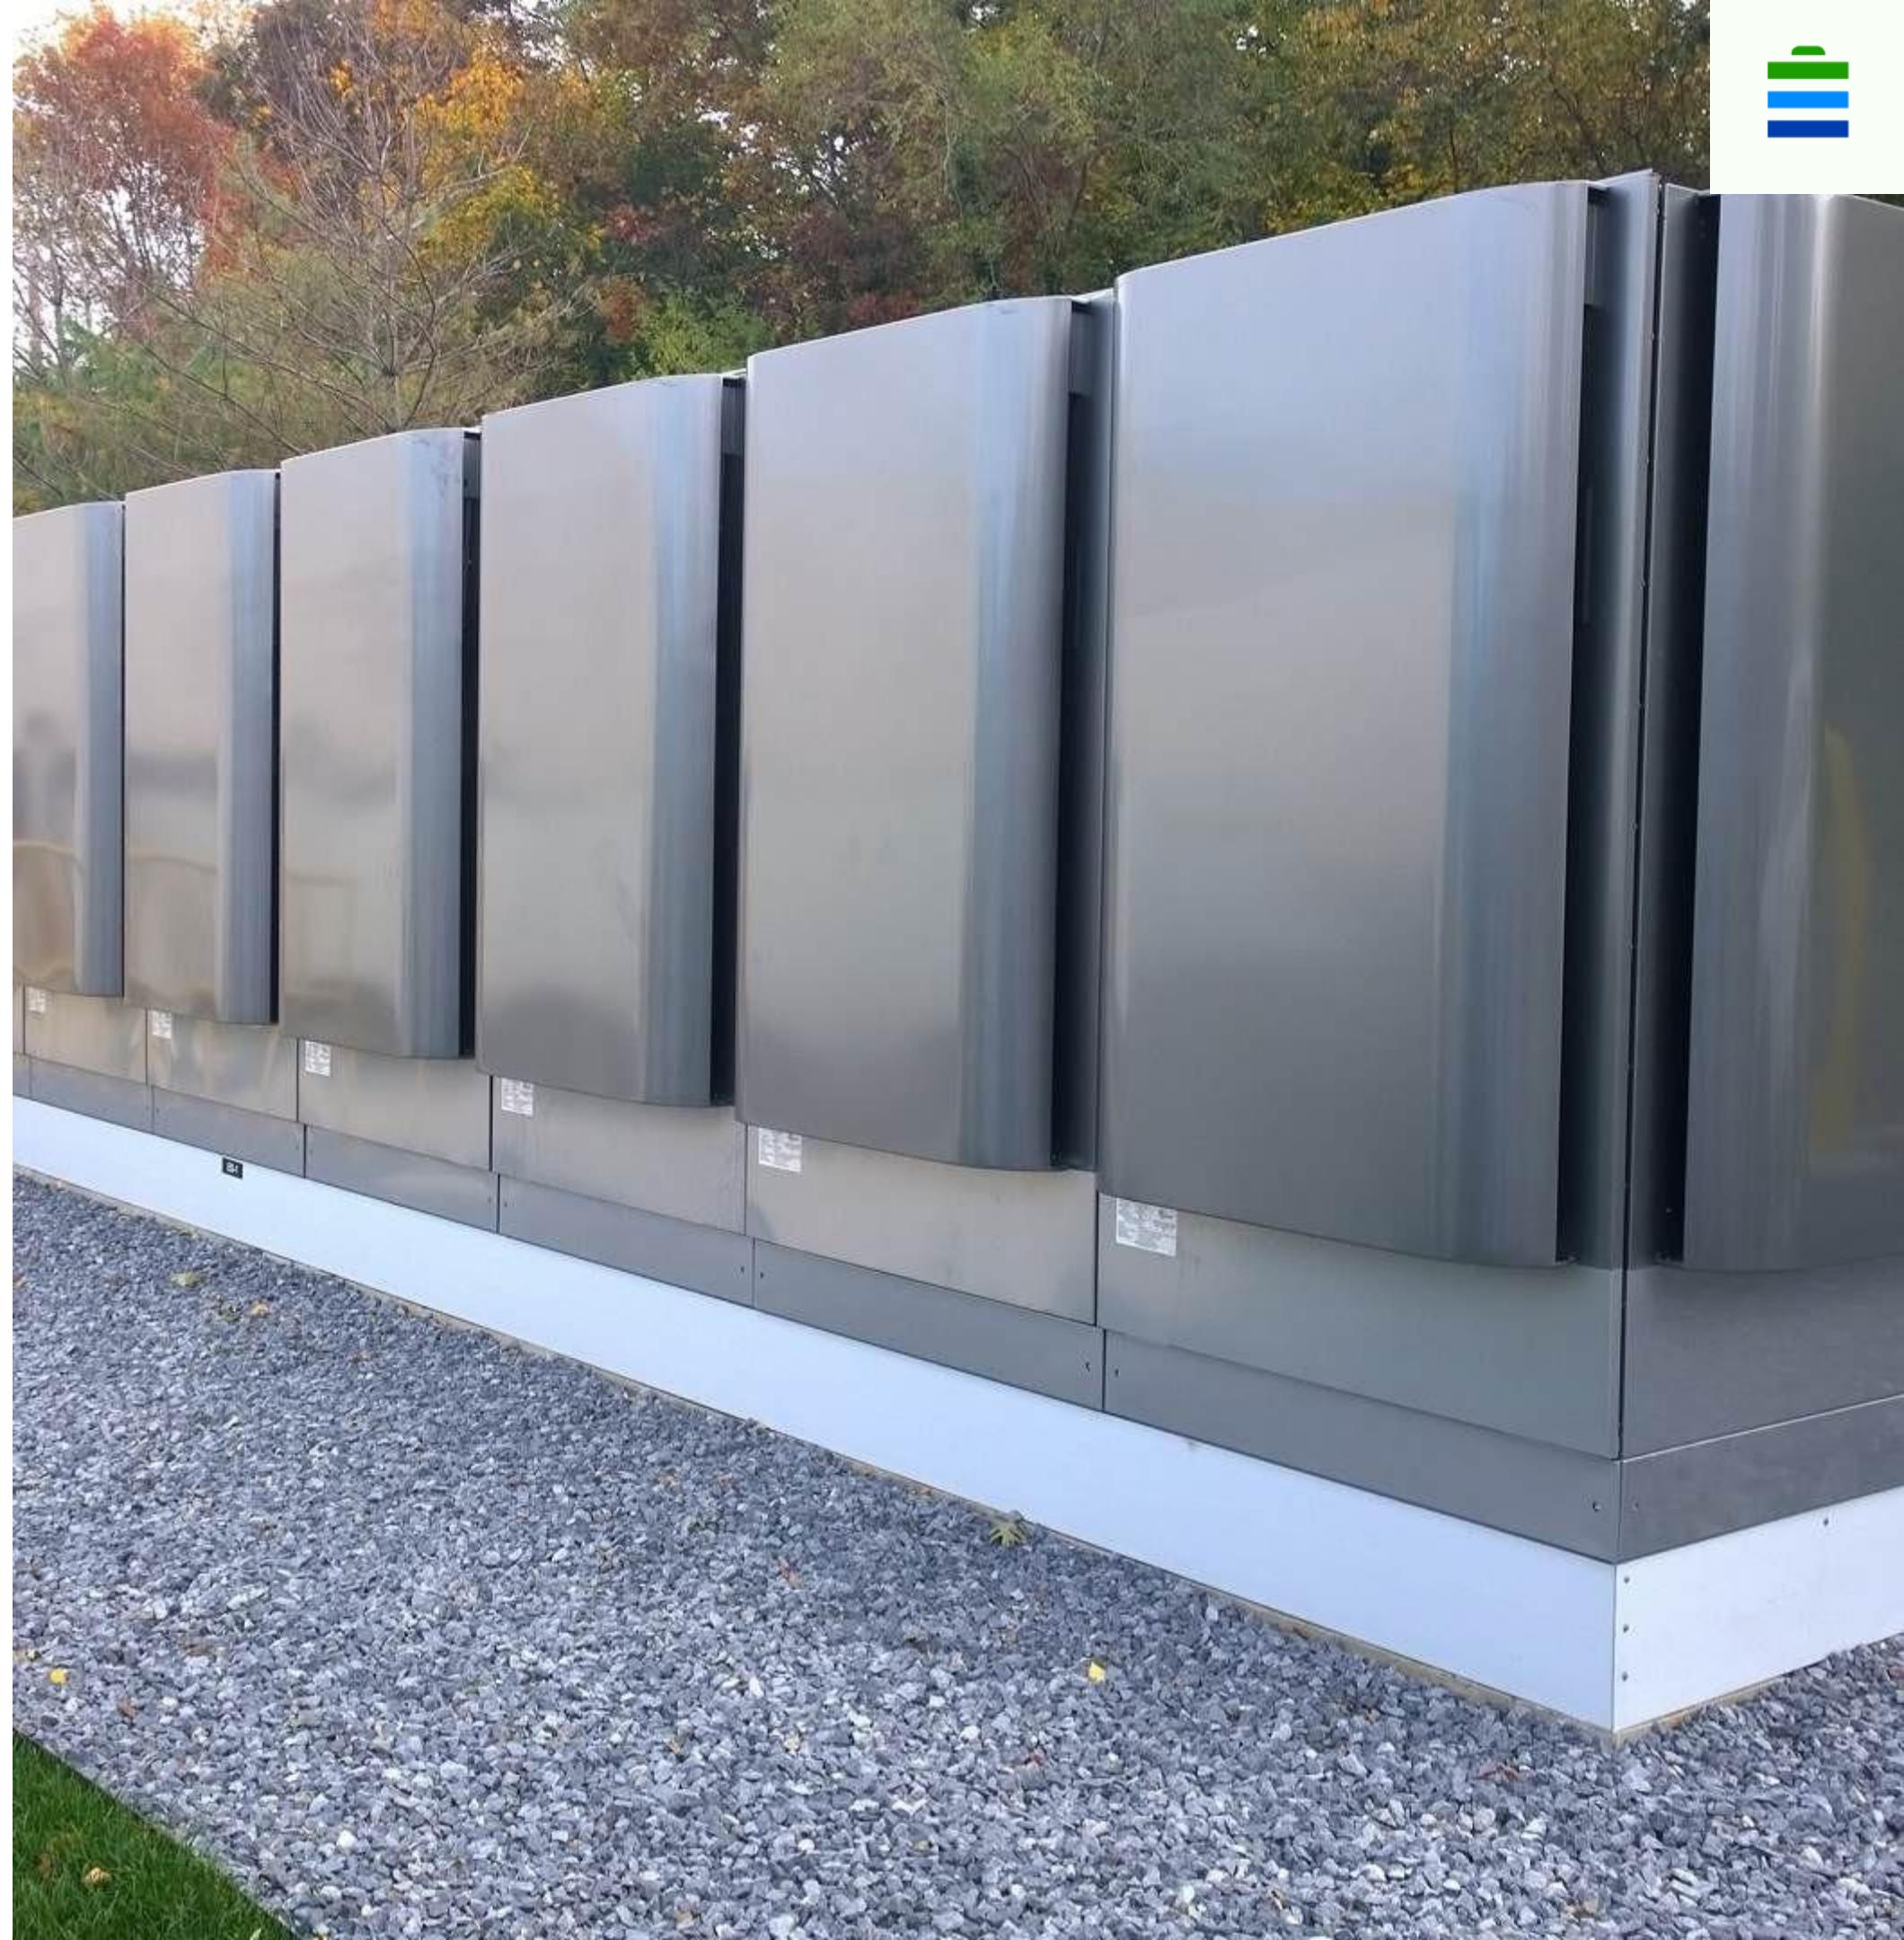

Strategic Location

Low-latency connectivity to major Northeast markets.

Sustainability Leadership

Easy access to I-91 and I-95 corridors.

Close to major airports and rail lines.
