ZONING OVERVIEW

NEIGHBORHOOD COMMERCIAL | NC3-75(M)

Moderately-sized pedestrian-oriented shopping areas that provide a range of goods and services to the surrounding neighborhoods. Compatible uses include housing and offices. Characterized by an attractive pedestrian environment, medium businesses and lot sizes, and moderate transit services.

Typical Land Uses

Medium-sized grocery stores, drug stores, restaurants, coffee shops, customer service offices, medical/dental facilities, and apartments.

Building Types

Single purpose commercial structures, multi-story mixed-use and residential structures. Non-residential uses typically occupy the street frontage.

Street-level Uses

No limit on mix of residential and non-residential uses, except where P zones or other mapped areas limit residential presence at street level.

Street-level Non-residential Design

Transparency is required along 60% of a street-facing facade between 2-8' above the sidewalk. Non-residential uses greater than 600 square feet (sf) at street level must have an average depth of 30' and a minimum depth of 15', and have a minimum height of 13'.

Street-level Residential Design

Residential uses must contain at least one visually prominent pedestrian entry. Dwelling units must be at least 4' above or 4' below sidewalk grade, or 10' back from a sidewalk, with some exceptions.

Maximum Size of Commercial Use

25,000 sf for most uses; 50,000 sf for multipurpose retail sales facilities.

Parking Location

Parking must be located at the rear or side of a building, within a structure, or off-site within 800'. Parking between a building and a street is not allowed. Parking to the side of a building is limited to 60' of street frontage. Within a structure, street-level parking must be separated from the facade by another permitted use.

Parking Access

Parking access must be from the alley, if feasible. If alley access infeasible, street access with limited curb cuts may be allowed.

ACCESS ROUTES

NORTHGATE LINK EXTENSION

THE NORTHGATE LINK EXTENSION has added three stations in Seattle, two underground (U District and Roosevelt stations) and an elevated station at Northgate, which will feature frequent bus connections, a park-and-ride and a bicycle/pedestrian bridge to North Seattle College.

NORTHGATE

Northbound trains emerge from the Maple Leaf tunnel portal and rise to the elevated Northgate Station spanning Northeast 103rd Street. Station entrances are located on mall property near the Northgate Transit Center. Extending north of the station the turn-back tracks mark the start of the Lynnwood Link Extension, opening in 2024.

ROOSEVELT

Near Green Lake, Roosevelt High School, and growing residential development, this underground station is located on 12th Avenue Northeast between Northeast 65th and Northeast 67th streets. In partnership with Bellwether Housing and Mercy Housing Northwest, a daycare center and approximately 245 units of affordable family housing will be built on station property.

U DISTRICT

The U District station, located on Brooklyn Avenue Northeast between Northeast 45th and Northeast 43rd streets, serves University Way Northeast (“The Ave”) retail and businesses, nearby residents and the west side of the University of Washington campus. Two entrances along Brooklyn Avenue Northeast connect passengers to the platform, about 80 feet below ground.

GREENWOOD & LICTON SPRINGS

GREENWOOD'S Main neighborhood is northwest 85th Street and Greenwood Avenue northwest. Originally named Woodland, the neighborhood became Greenwood in 1907.

Best known for its antique shops, Greenwood's commercial district also contains an eclectic mix of small businesses, specialty shops, ethnic restaurants and pubs. Notable neighborhood hangouts include the 74th Street Ale House and Yanni's Greek Restaurant. The neighborhood has a diverse range of restaurants, ranging from casual burger joints to upscale eateries. One popular restaurant is FlintCreek Cattle Co., which serves locally sourced, sustainable meat dishes. In addition, Greenwood is home to several excellent breweries and bars, including Naked City Brewery & Taphouse, which has won several awards for its craft beer.

Greenwood have experienced a surge of newer condo and townhome development. These, alongside the existing classic Craftsman bungalows and Northwest Modern homes, offer something for single professionals, couples and growing families. Greenwood is well-connected to other parts of Seattle, making it easy for residents to get around the city. The neighborhood is served by several bus lines, including the RapidRide E Line, which provides express service to downtown Seattle. In addition, Greenwood is located near major roads like Aurora Avenue North, making it easy to get to other parts of Seattle and beyond.

LICTON SPRINGS or North Green Lake is a small neighborhood located between Aurora Ave N and Interstate-5 North in the area they most closely converge within North Seattle.

The proximity to the 2 most major North/South routes in Seattle as well as quick access to the E Line, Northgate Transit Center, and future light rail combine to make Licton Springs one of the most well connected neighborhoods in Seattle with Downtown Seattle almost always less than 15 minutes away.

The area is also a natural spring at the north end of Licton Springs Park, which has a long history as both a unique recreational spot and a commercial crossroads. The neighborhood takes its name from liq'ted (LEEK-teed) or Licton, the Lushootseed (Whulshootseed) Coast Salish word for the reddish mud of the springs. The Coast Salish native people had used the springs area as a spiritual health spa. Neighborhood activists and North Seattle Community College (NSCC) have been promoting habitat restoration in support.
