## Title Insurance Company

First American traces its roots to 1889, when Orange County, California. Our primary business is title insurance and settlement services, where we protect ownership rights for both the buyer and the lender—helping to facilitate the seamless exchange of property. You can think of a title search as a background check for real property. We work to uncover and resolve issues that would limit a new buyer's right to own the property and to sell it in the future, and we insure against unknown issues or fraud that could show up later. We do this for a variety of property types including all types of residential, commercial, and industrial transactions.
