PROPERTY SUMMARY

PROPERTY SUMMARY

We present an exceptional, rare market opportunity to acquire one of the largest cold storage facilities in Southern Oregon (661 & 801 below). This expansive property consists of four separate buildings, each equipped with individual cooling systems and shared demising walls. Some of these buildings offer seamless access between them. The available square footage is distributed as follows: 7,400 SF, 13,600 SF, 15,600 SF, and an additional 15,600 SF. All of these buildings are currently adaptable for a variety of uses, including warehousing, cooling, and freezing, with the capability to function as freezer facilities.

Connected to these four buildings is a range of additional facilities including a 1,100 SF ice/processing room, a 5,000 SF office space, and a 3,000 SF engine room. Some short-term tenants may be willing to stay on, or buildings could be completely vacant.

Additionally, there is the option to explore a neighboring dry warehouse (615 below), comprising three buildings with a total area of 42,400 SF, which can be considered as part of a comprehensive package (information available separately).

LOCATED IN AN OPPORTUNITY ZONE

In 2018, the U.S. Treasury made opportunity zone designations across the country to encourage long-term investments through a federal tax incentive. Governor Brown's nomination resulted in 86 qualified opportunity zones in Oregon.
