# 4646 DUBAI WAY - NORTH BUILDING

Located at 4646 Dubai Way in Frisco, Texas, this property is part of a two-building development positioned near The Star and within close proximity to major healthcare providers including Texas Health Hospital Frisco and Scottish Rite for Children. The property benefits from a premier location within one of North Texas' most established and highly sought after medical corridors, offering strong connectivity to hospital systems, referral networks, and a growing patient base.

The available space is delivered in shell condition, providing medical users with the opportunity to design and construct a fully customized build out tailored to their clinical and operational needs. This flexibility makes the space well suited for physician practices, specialty clinics, and outpatient providers seeking a long term presence in a top tier Frisco location. Supported by strong demographics, continued population growth, and limited trophy medical office supply in the immediate area, this asset offers exceptional positioning within the Frisco medical market.

# NORTH BUILDING

## LUXURY MEDICAL LEASING

This boutique leasing opportunity offers a rare chance for tenants to design a truly differentiated space in the Frisco market. With ceiling heights exceeding twenty feet, two elevators, private outdoor space on both floors, and shared structured parking, the building provides the architectural scale and flexibility needed to create a premium, experience-driven environment.

The property is ideally suited for luxury medical users, including plastic surgery, cosmetic surgery, and high-end med spa operators serving Collin County's affluent demographic. The layout and features support privacy, branding, and patient experience, allowing tenants to design a destination-style facility tailored to their practice.

Unlike traditional office buildings, this space enables tenants to create a customized environment that reflects their brand and elevates the client experience from arrival through treatment, offering a level of distinction that is difficult to replicate elsewhere in the market.

These images are artistic renderings intended to illustrate a potential build-out concept. They are for illustrative purposes only and do not represent existing conditions or final design.

## PLATINUM CORRIDOR:

Frisco, Texas is one of the fastest-growing cities in North Texas, known for its highly rated schools, quality of life, and strong mix of dining, retail, sports, and entertainment.

The Platinum Corridor along the Dallas North Tollway represents the next phase of Frisco's growth, with major developments announced or underway between SH 121 and US Highway 380. The corridor is home to a concentration of corporate campuses, medical facilities, mixed-use developments, and destination retail, making it one of the most active and sought-after commercial corridors in the region.

# FRISCO, TX

Frisco continues to be one of the most dynamic commercial real estate markets in North Texas. Its strategic location, strong population growth, and business-friendly environment have fueled demand across office, retail, industrial, and especially medical office sectors. The Platinum Corridor remains a primary driver of office and corporate activity, while new healthcare facilities and medical office developments are addressing rising demand from an expanding population and affluent patient base. This combination of growth, infrastructure, and tenant demand makes Frisco an attractive location for users seeking long-term visibility and access to a robust regional economy.
