LOCATION OVERVIEW

Los Angeles County

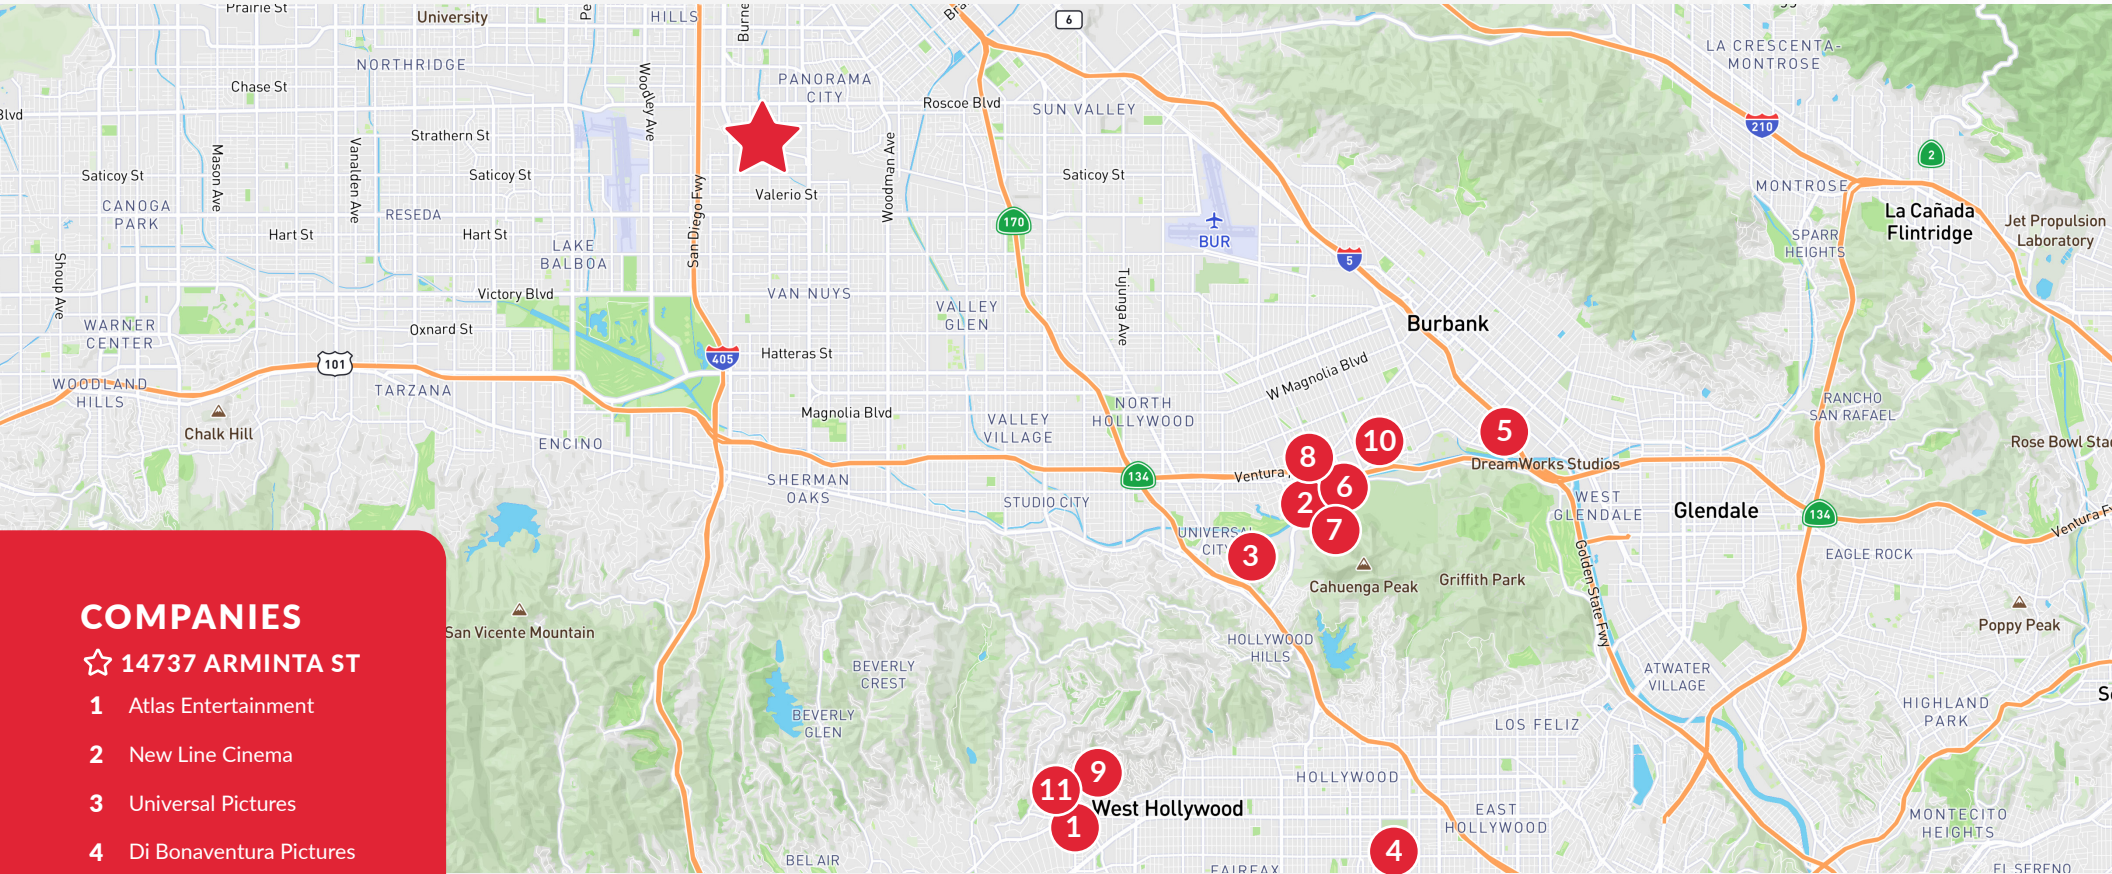

Los Angeles County is well located on the Southern Coast of California and covers 4,061 square miles, including the San Clemente and Santa Catalina islands. Home to approximately 9.9 million residents, it is the most heavily populated county in the U.S. and is only exceeded by eight states.

The county includes approximately 88 vibrant cities hosting more than 244,000 business establishments, the greatest concentration in the state, with more minority and womenowned businesses than any other in the U.S., and is the nation's top international trade and manufacturing center. Los Angeles County has one of the most educated labor pools in the country. Its well-trained workforce of more than 4.7 million people includes over 1.5 million college graduates. With a Gross Domestic Product (GDP) of approximately \$750 billion, if Los Angeles County were its own nation, its economy would be the 19th largest in the world.

Los Angeles is recognized worldwide as a leader in entertainment, health sciences, business services, aerospace, and international trade. The Los Angeles area is so large and diverse, it has something for everyone. While Hollywood and the beach culture are most often associated with the collective image of Los Angeles, it also boasts an abundance of museums, some of the world's best restaurants and hotels, and access to nearly any type of recreational activity one can imagine.
