9.140.010 Purpose

The purpose of this chapter is to establish business districts in the City that provide appropriate locations for commercial, office, industrial and economic development. These districts are consistent with and implement the City's General Plan.

9.140.020 Description and Intent of Zone

EDC-NG EDC-MB EDC-CC EDC-NR EDC-SG

The following descriptions identify the characteristic uses, intensity of uses, and level of development intended for each zone:

- A. **Economic Development Corridor Northern Gateway (EDC-NG).** Envisioned as a business park area with more intensive industrial uses (less office) than envisioned for the Scott Road EDC area. Provides a buffer and transition between the commercial uses in Perris to the north and the residential uses in Menifee, south of McLaughlin Road.
- B. **Economic Development Corridor McCall Boulevard (EDC-MB).** Envisioned as a mix of office, medical, and residential uses (assisted living, senior apartments, townhomes, etc.) that would be compatible with the Regional Medical Center and would provide health-related services in close proximity to Sun City residents.
- C. **Economic Development Corridor Community Core (EDC-CC).** The Community Core is envisioned as the City's primary activity center and gathering place. Civic and entertainment uses are envisioned here that are complemented with commercial retail uses and higher density housing options that encourage walkability and reduce the use of the automobile. This area is intended to function as the ceremonial "heart" or downtown of the City of Menifee and will serve as a transition from existing rural lots to more concentrated retail and office development moving east toward I-215.
- D. **Economic Development Corridor Newport Road (EDC-NR).** The Newport Road Corridor is intended to provide neighborhood-oriented commercial uses that support the adjacent residential development to the north and south. Business park, office, or residential uses are envisioned along Bradley Road, to provide a buffer the commercial corridor and a logical transition to the adjacent single-family residential neighborhoods to the north.
- E. **Economic Development Corridor Southern Gateway (EDC-SG).** Southern Gateway will feature a business park style of development consisting of light industrial and office uses, with commercial use opportunities. The objective is to allow development while preserving the rural character of the Southern Gateway area.

9.140.030 Allowed Uses and Approval Requirements EDC-NG EDC-MB EDC-CC EDC-NR EDC-SG

- A. Allowed Use Table.** Table 9.140.030-1 identifies allowed uses and corresponding approval requirements for the EDC zones subject to compliance with all other provisions of this Title. Descriptions/definitions of many of the land uses can be found in [Article 6](#) of this title (Definitions). The list of land uses, with the exception of prohibited uses, on Table 9.140.030-1 shall be permitted in one or more of the EDC zones as indicated in the columns corresponding to each zone.
- B. Approval Requirements.** Where indicated with a letter “P” the use shall be a permitted use. A letter “C” indicates the use shall be conditionally permitted subject to the approval of a conditional use permit. Where indicated with a “--,” the use is prohibited within the zone. The Additional Requirements column in the table identifies additional use regulations for specific uses and/or the specific chapter or section where additional regulations for that use type are located within this title, where applicable. Uses for which additional requirements are listed shall be allowed only upon satisfaction of the specified additional requirements. Under no circumstances shall Table 9.140.030-1 authorize a use without satisfaction of such specified additional requirements
- C. Unlisted Uses.** Uses not specifically listed in this table shall be considered not permitted in all of the listed zones. The Community Development Director may make a determination pursuant to [Chapter 9.95](#) (Similar Use Determination) that new uses not listed here that have substantially similar characteristics to specific listed permitted uses may be considered permitted as the similar use by right, or conditionally as appropriate.

9.140.050 Special Requirements for Mixed Uses and Residential Uses in Economic Development Corridor Zones

- A. Intent of Mixed Uses.** The mixed-use allowances within the Economic Development Corridor (EDC) Zones are intended to enhance, revitalize, and provide opportunities for new development in designated areas of the community. This allows for retail and service commercial businesses (local and regional) and moderate- to high-density residential uses to be integrated vertically consistent with the General Plan.
- B. Mixed Use Setback Requirements.** Within the required front setback area, paved walkways for pedestrian use shall be augmented with landscaping such as planters and trees. Elements enhancing the pedestrian experience shall be incorporated into the design of the front setback, including but not limited to, benches, lighting schemes, and decorative paving.
1. Mixed-use developments where the front lot line abuts a major traffic corridor must have a minimum front yard setback of 40 feet.
 2. Mixed-use developments where the front lot line does not abut a major traffic corridor must have a minimum front yard setback of 25 feet.

C. Mixed Use Notification Requirements. The following notification requirements for mixed use developments in a designated EDC district apply:

1. Residents (owners and tenants) of new residential and mixed-use development projects in an Economic Development Corridor Zone where residential uses are allowed shall be notified in writing before taking up residence that they will be living in an urban-type environment and that noise levels may be higher than a strictly residential area.
2. The conditions of approval of a residential or mixed-use project within an Economic Development Corridor Zone will require prospective residents to acknowledge the receipt of the written noise notification. Signatures shall confirm receipt and understanding of this information.

D. Restrictions on Land Uses and Activities in a Vertically Integrated Mixed-Use Development. Economic Development Corridor Zones featuring vertically integrated mixed-use developments shall be subject to the following use limitations:

1. Commercial, office or institutional development component shall comprise a minimum of 0.3 FAR of the overall development.
 - a. A project consisting entirely of deed-restricted affordable housing will not be required to have a commercial feature component but shall be limited to the EDC districts' residential percentage limit of the City's General Plan.
 - b. Commercial storefronts in the Community Core and Southern Gateway Zones are required along street frontages. Residential development(s) are not allowed street frontage in these EDC Zones.
 - c. Live-work units are allowed as part of a mixed-use development. Dwelling areas in multi-family residential units are not allowed to be devoted solely to a commercial, office, or production activity.
2. *Prohibited Land Uses and Activities in a vertically integrated mixed-use development.* The following activities are prohibited within vertically integrated mixed-use developments:
 - a. General auto repair including paint or body work, auto maintenance or similar use.
 - b. Manufacturing or industrial activities, including, but not limited to, welding, machining or open flame work, except those necessary as part of an art or jewelry producing activity.
 - c. Any other activity, as determined by the Community Development Director to be incompatible with residential activities and/or to have the possibility of adversely impacting the health or safety of residents due to the potential for the use to create late-night activity, dust, glare, heat, noise, noxious gases, odor, smoke, traffic, vibration or other impacts, or would be hazardous because of materials, processes, products or wastes, within individuals units or to adjoining/surrounding units.
3. *Loading and unloading activities.* Conditions of approval for a mixed-use development shall indicate the times when the loading and unloading of goods, products, supplies or similar items will occur. Loading or unloading activities are prohibited between 10:00 p.m. and 7:00 a.m. the following morning on any day of the week.
4. *Conversion to Residential.* A mixed-use building shall not be converted to entirely residential use unless the development is consistent with all of the standards of this chapter, including 9.140.050.D.1.b and 9.140.050.E.2 regarding street frontage and freeway adjacency. The conversion project proposal must first be reviewed and approved by the Planning Commission. A certificate of occupancy for the conversion is required.

E. Special Requirements for Residential Uses in EDC Zones. All residential uses in EDC zones shall be subject to the following provisions:

1. Residential developments shall be integrated vertically with non-residential uses and shall not be allowed as "stand alone" projects or on EDC parcels directly adjacent to a freeway (residential developments may not be located within 1,000 feet of the I-215 right of-way per table above and General Plan).
2. New residential developments in the Economic Development Corridor Zones are required to include a commercial, office or institutional component and/or enter into an agreement with the City for the development of a commercial, office or institutional facility on another property within the same Economic Development Corridor Zone and within a specified time period.
3. Residential density limitations are established within the General Plan and are in addition to other applicable requirements of this chapter.

F. Single Family Residential Developments in EDC Zones. Single Family residential uses in EDC zones shall be subject to the following requirements:

1. Single-family dwellings existing as of the effective date of the Ord. 2015-180, passed 11-18-2015 in an Economic Development Corridor Zone shall be considered as permitted uses and shall be subject to development standards for LDR-2 zone, as set forth in [Chapter 9.130](#) of this Title or other zone as determined by the Community Development Director.
2. Tract maps approved prior to the effective date of this chapter located within any Economic Development Corridor Zone shall be considered a permitted residential use and shall be subject to the appropriate Residential Zone development standards of [Chapter 9.130](#) of this Title, as determined by the Community Development Director.

G. Multi-Family Residential Developments in EDC Zones. Multi-family residential uses shall be subject to the development standards of the appropriate zone in [Chapter 9.130](#), as determined by the Community Development Director.

H. Mixed-Use Multi-Family Developments in EDC Zones. The provisions of this section shall apply to multi-family residential portions of mixed-use developments in addition to other applicable requirements of this chapter.

1. *Maximum Number of Bedrooms per Unit.* No single dwelling unit shall have more than 4 bedrooms, unless otherwise approved by the Planning Commission.
2. *Residential Building Separation.* Residential developments and residential portions of mixed-use developments shall meet the minimum building separation requirements as established below:

Minimum Building Separation (Same Recorded Lot)	
From 1 story to 1 story building	15 ft.
From 1 story to 2 story building	20 ft.
From 2 story to 2 story building	20 ft.
Additional story either building	20 ft. plus 5 ft. per additional story above 2 for either building

3. *Elevation of First Floor.* The first habitable floor of a residential-only building shall be located not more than 4 feet above and not more than one foot below the elevation of the adjacent sidewalk or the finished grade 8 feet from of the foundation.
4. *Open space, recreation and leisure area requirements for residential components of integrated mixed-use developments.* Residential components of mixed-use developments shall provide open

space, recreation, and leisure areas at a minimum of 300 square feet per dwelling unit. The following spaces shall contribute to the open space, recreation area, and leisure area requirement:

- a. *Private Open Space.* Private open space shall be provided at each unit. Private open space may be provided in the form of a patio, yard, balcony or combination thereof and shall be directly adjacent to and accessible from each unit. Private open space shall have a minimum area of 90 square feet, with a minimum depth dimension of 6 feet and a minimum width dimension of 10 feet.
- b. *Active Recreation Areas.*
 - i. Active recreation areas shall include one or more of the following: spa, pool, indoor equipped work-out room(s), tennis, volleyball, racquetball courts, basketball half court, or other similar usable recreational activities as determined acceptable by the Planning Commission during a discretionary review. Active recreation areas shall be open to and accessible to all residents of the mixed-use complex. The required active recreational amenities shall be based on a needs assessment evaluation of the proposed project. The evaluation shall take into consideration the following criteria:
 - a. Size and shape of active recreation area;
 - b. Location and placement of buildings;
 - c. Diversity of recreational amenities needed based upon anticipated resident mix;
 - d. Number of units, size mixture of units, and lot size.
 - ii. Active recreation areas shall not be less than 20 feet in width or depth. Increased dimensions may be required through the discretionary review process based upon specific project circumstances and the intended use of that active recreation area.
 - iii. Active recreation areas may be located indoors, in outdoor portions of habitable levels, or on roof decks. Active recreational areas located in this manner shall not contribute more than 50% of the required open space, recreation, and leisure areas, unless otherwise approved by the Planning Commission.
 - iv. Active recreation areas shall be buffered from adjacent residentially zoned lots. Active recreation areas that feature such activities as pools, spas, court activities shall be placed and operated so as not to infringe upon the peacefulness of nearby residential units or adjoining residential properties.
- c. *Passive Recreation Areas.* Passive recreation areas shall incorporate pathways, waterscape, hardscape (i.e., large rocks or boulders, benches, gazebos, raised planters constructed on site of bricks, concrete or rocks, or other materials) and unique features that enhance the appearance, desirability and usability of the area. The intent is to provide landscaped areas that can be utilized for walking, sitting, viewing plants and vegetation, reading, and similar types of passive activities. Passive recreation areas shall have a minimum dimension of 10 feet in width and 30 feet in length. These areas shall not contribute more than 50% of the required open space, recreation and leisure areas. An area designated as a "Community Garden" may contribute up to 25% of the required open space, recreation and leisure area(s) of a residential development.
- d. *Mixed Use Shared Passive Recreation Areas.* Passive recreation areas and joint use patios and plazas may contribute to the requirement for open space, recreation and leisure areas. Passive areas are generally shared with commercial, office or institutional components in a mixed-use development. Passive recreation areas do not include areas used for outdoor dining, fenced or otherwise restricted for use by a single business or tenant. Shared passive recreation areas shall

have a minimum dimension of 10 feet in width and 30 feet in length. Such areas shall not contribute to more than 25% of the required open space, recreation and leisure areas.

5. *Additional multi-family residential unit requirements.* Each residential unit in a multi-family component of a mixed-use development shall comply with the following requirements:

- a. *Laundry Facilities.* Each unit shall be provided with washer and dryer hookups and laundry space within the unit. For apartment units, common laundry facilities may be provided.
- b. *Storage Facilities.* Each unit shall be provided with a separate storage area having a minimum of 300 cubic feet of private and secure storage space. This storage space may be located within the parking garage provided it does not interfere with garage use for automobile parking. Closet and cupboard space within the dwelling unit shall not count toward meeting this requirement.

(2024-384, 02/07/2024)
