## Micron Technology coming to Clay, NY.

Micron Technology plans to spend up to **\$100 billion** building a mega-complex of computer chip plants in Syracuse's northern suburbs in what would be the largest single private investment in New York history.

Micron announced the details about the project, which would create up to **9,000 jobs** over the next 20 years at the White Pine Commerce Park in Clay.

The project is expected to bring an additional **40,000 supply-chain and construction jobs** to the Syracuse area and New York state.

The company's plans call for building a massive **7.2 million-square-foot** complex that will include the nation's largest clean-room space. The clean-room facilities alone would cover about **2.4 million square feet**, about the size of **40 football fields**.

Micron would build up to **four separate semiconductor fabrication plants** in phases at the 1,300-acre site off Route 31, said Micron President and CEO Sanjay Mehrotra.

Micron said the local employees would be paid an average salary of more than **\$100,000** per year.

Rendering shows Micron Technology Inc.'s planned semiconductor fabrication facility in Clay
