Map Location

ArcelorMittal / Nippon Steel Plant

AM/NS Calvert, located directly across from the subject property, is one of the most advanced steel finishing facilities in the world. Jointly operated by industry giants ArcelorMittal and Nippon Steel Corporation, the mill boasts a production capacity of 5.3 million tons of flat-rolled carbon steel products annually. Its presence signifies a stable economic anchor, bringing continuous industrial growth and employment opportunities to the area. Currently, AM/NS Calvert employs approximately 1,600 people, contributing significantly to the local economy and community.

The steel mill not only contributes significantly to the local economy but also ensures a steady influx of skilled workers and professionals to the region. This means potential commercial and residential developments, like the subject property, will benefit from a robust customer base and reliable infrastructure. Additionally, the U.S. Department of Energy recently awarded \$280.5 million in tax credits to ArcelorMittal for establishing a new electrical steel facility at the site. This project will create 260 permanent jobs and 1,300 construction jobs, further bolstering the local economy and supporting the automotive industry's shift to electrification.
