## CITY LIFE

“I really wanted to move to a bigger city while I was young and do the city thing.”

## EVENTS

“What I really love about Kenect are the community events.

where they'll have food, drinks, and giveaways. It's been a great way to meet people, especially being new to the city. I've discovered some really great talent who live and perform onsite!

The longer you live here, the more and more you start to see other Kenect faces around town. It's, like, 'hey! I know you!' It's really fun.”

## POOL DAYS

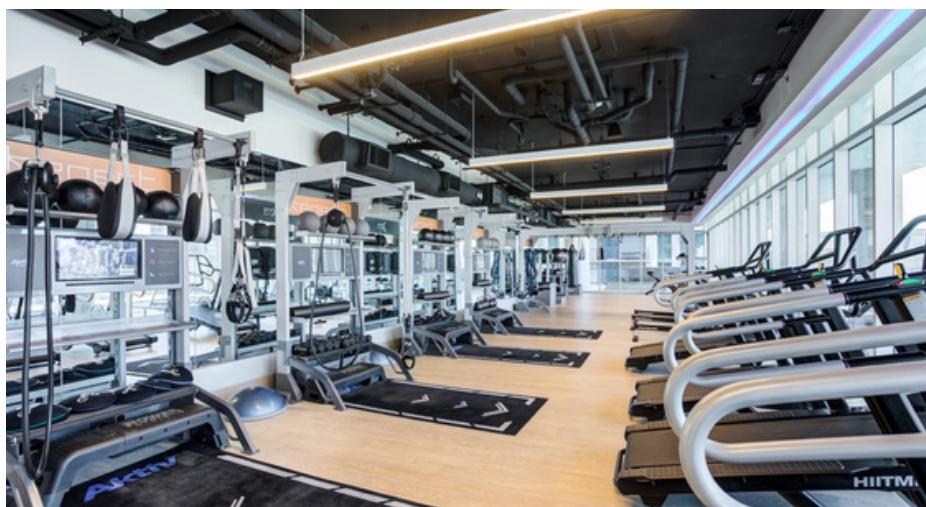

“I use the pool a lot during the summer, and I like to go up and work up there. How many other people can say they take their breaks at the pool?!”

## SHARED WORKSPACE

“I love the modern feeling of the space!

Kenect has been the glass slipper for us, because our team is small, and we come and go at different times. There are different areas for focusing for working alongside other people. And if we need to get the whole team together, we can just rent out a meeting room in our Kenect app or in the Membership Portal.

And The fact that we have a pool and a gym and all of these activations?? I just love it!”

## FITNESS

“I go to the gym to start each day.

Between the cardio equipment, fitness classes, and AKTIV Training Bays, this gym has literally everything you need.”
