Property Overview

These three parcels of vacant land are located within close proximity to a proposed solar field and receive plenty of sunlight; making these parcels primed for solar production and additional energy-related opportunities.

S-2 zoning allows for many uses not limited to solar and the deployment of solar fields in desert regions is feasible with the appropriate permits. However, the purchaser of these parcels will render government incentives and rebates in an attempt to reinforce the importance of energy generation efforts.

Location Overview

Imperial County, CA, offers a compelling opportunity for solar building investors. With the property's expansive 1,514 acres, the area is primed for growth and development. Nestled near the picturesque Salton Sea and paralleling Hwy 86- which is a major thoroughfare to Brawley, El Centro and Calexico. The proximity to major transportation routes, such as I-86 and Highway 78, ensures seamless connectivity for businesses. Notably, Imperial County serves as a hub for renewable energy projects, making it an attractive prospect for forward-thinking investors. This strategic location, combined with the area's unique charm and growth potential, positions it as an ideal investment opportunity for solar building ventures.
