Combined Properties and H&R Retail are proud to present South Alex, a luxury mixed-use development containing 400 apartments and 42,500 SF of retail, situated along highly-trafficked Route 1 in Alexandria, VA.

- PROJECT |
- Mixed-use development that offers both luxury residential and commercial spaces, creating a dynamic community with plenty of built-in foot traffic
 - 400 residential units and 41 townhomes, providing a large customer base for your business to tap into
 - Approximately 22,500 square feet, providing ample room for your business to grow and expand
 - As an added bonus, South Alex includes a 20,000 square foot Aldi grocery store on site, which will attract even more visitors to the property and provide convenient shopping options for your customers
 - Prime location at intersection of Rt 1 and North Kings Hwy with convenient access to Huntington Metro, Springfield/Ft. Belvoir, I-495, and Alexandria
 - Adjacent to 680-unit apartment building
 - 143-space at-grade retail parking garage and 41 drive-up parking spaces for retail use, ensuring that your customers will always have a convenient place to park

Don't miss out on the opportunity to lease a retail space at South Alex!

TAPESTRY SEGMENTS

3A

Laptops and Lattes
30,742 (17.3%) of households

Laptops and Lattes residents are predominantly single, well-educated professionals in business, finance, legal, computer, and entertainment occupations. They are affluent and partial to city living—and its amenities. Neighborhoods are densely populated, primarily located in the cities of large metropolitan areas. Many residents walk, bike, or use public transportation to get to work; a number work from home. Although single householders technically outnumber couples, this market includes a higher proportion of partner households, including the highest proportion of same-sex couples. Residents are more interested in the stock market than the housing market. Laptops and Lattes residents are cosmopolitan and connected—technologically savvy consumers. They are active and health conscious, and care about the environment.

- These are health-conscious consumers, who exercise regularly and pay attention to the nutritional value of the food they purchase.
- Environmentally conscientious but also image-conscious: both impact their purchasing.

2D

Enterprising Professionals
23,463 (13.2%) of households

Enterprising Professionals residents are well educated and climbing the ladder in STEM (science, technology, engineering, and mathematics) occupations. They change jobs often and therefore choose to live in condos, town homes, or apartments; many still rent their homes. The market is fast-growing, located in lower density neighborhoods of large metro areas. Enterprising Professionals residents are diverse, with Asians making up over one-fifth of the population. This young market makes over one and a half times more income than the US median, supplementing their income with high-risk investments. At home, they enjoy the Internet and TV on high-speed connections with premier channels and services.

- Enjoy talking about and giving advice on technology.
- Half have smartphones and use them for news, accessing search engines, and maps.
- Work long hours in front of a computer.
- Strive to stay youthful and healthy, eat organic and natural foods, run and do yoga.
- Buy name brands and trendy clothes online.

3B

Metro Renters
19,702 (11.1%) of households

Residents in this highly mobile and educated market live alone or with a roommate in older apartment buildings and condos located in the urban core of the city. This is one of the fastest growing segments; the popularity of urban life continues to increase for consumers in their late twenties and thirties. Metro Renters residents income is close to the US average, but they spend a large portion of their wages on rent, clothes, and the latest technology. Computers and cell phones are an integral part of everyday life and are used interchangeably for news, entertainment, shopping, and social media. Metro Renters residents live close to their jobs and usually walk or take a taxi to get around the city.

- Willing to take risks and work long hours to get to the top of their profession.
- Become well informed before purchasing the newest technology.
- Prefer environmentally safe products.
- Socializing and social status very important.
