## Prime Medical / Professional Office Suite

**1,550 SF | 4 Private Offices | ~\$1,800/Mo + Utilities | Zero CAM | Landlord-Paid Expenses | 2GB Fiber Included**

Position your business in a polished, turnkey office with exceptionally low overhead and predictable monthly costs. This ±1,550 SF medical/professional suite is designed for operators who want to focus on their business—not building management—just minutes from the Norwalk Hospital medical corridor.

The suite features four hard-walled private offices, a full kitchen, and a private bathroom with shower—a rare amenity set that supports long workdays, medical practitioners, and active professionals who value on-site convenience. ADA-compliant ground-level access and 4–6 dedicated off-street parking spaces further enhance usability for both clients and staff.

Cost efficiency is a core advantage. The modified-gross lease includes property taxes, insurance, common area maintenance, landscaping, snow removal, and high-speed 2GB fiber internet (estimated \$325/month value). Tenants are responsible only for separately metered electric and gas, delivering clarity, control, and unusually low operating friction for a Norwalk office suite.

Quiet surroundings, strong regional access, and hands-off ownership make this a low-stress, high-efficiency workspace rarely available at this price point.
