The (Wine) Cellar

The basement presents future operators with a unique opportunity to create a one-of-a-kind concept, such as an intimate Wine Cellar, tasting lounge, or lower-level cocktail bar experience. With extra-tall ceilings and an existing egress to the outdoors, the space offers excellent flexibility for creative buildout, with opportunities to add additional egress points if desired. A full asbestos remediation has been completed, and the basement is primed for renovation, offering ample room for seating, a full-service bar, and a unique guest experience.

The Garage

The garage gives operators the flexibility to expand their concept with additional dining or brewery options. The space could be converted into a microbrewery production area, or upgraded with new garage doors to create an indoor/outdoor dining experience and an open-air atmosphere for guests.

Office or Lounge Space

There are also opportunities for office space for future operators on both the first and second floors. The first-floor space could double as a private lounge, VIP area, or flexible back-of-house support space. The second-floor office area presents a strong long-term value-add opportunity, and could be reconfigured in a Phase II renovation to open up to the dance hall below.
