REXWOODS MEDICAL PARK | LEASING BROCHURE

# LOCATION OVERVIEW

The Research Triangle's economic diversity strategically positions the region as one of the fastest growing metropolitan areas in the country. The Research Triangle features a well-balanced economy driven by a robust mix of leading pharmaceutical and biotechnology companies, healthcare institutions, financial services companies, world-class universities, and the state government.

Strategic corporate locations for some of the largest healthcare and technology firms in the world magnetically attract startups and regional firms that are seeking to capitalize on the highly educated employment base that has formed as a result of the long-tenured STEM tenant base and halo effect of nearby universities. The effects of Covid have been muted in the region due to the appeal RTP has for life science tenants and it's strong medical research centers, such as Duke University Medical Center and UNC Health Care.
