The provisions of Sections 2000 through 2999 and Sections 8000 through 8999, inclusive, shall be known as the San Diego County Use Regulations and Village Regulations respectively. The purpose of these provisions is to specify the range and combinations of uses necessary to meet requirements for residential and non-residential development within San Diego County as set forth in the policies and principles of the San Diego County General Plan.

(Amended by Ord. No. 10700 (N.S.) adopted 12-9-20)

#### 2060 CONSISTENT USE REGULATION.

A consistent Use Regulation as indicated by the symbol (●) is a Use Regulation which is consistent with the indicated Land Use Designation to which it is applied unless precluded by the General Plan, Community Plan or Specific Plan with consideration given to terrain, access, hazards, community character, lot configuration, lot size, drainage, adjacent land use, traffic congestion, noise, air pollution, other factors affecting health, safety or welfare or any other relevant issue.

(Added by Ord. No. 10217 (N.S.) adopted 7-25-12)

#### 2070 SPECIAL CIRCUMSTANCES.

A Use Regulation as indicated by the symbol (o) is a Use Regulation which may be applied in special circumstances with a corresponding Land Use Designation and shall meet one of the following:

- a. The existing Use Regulation was in effect prior to the adoption of the current Land Use Designation; or
- b. The property or area meets the findings in Section 2072 below.

(Added by Ord. No. 10217 (N.S.) adopted 7-25-12)

#### 2072 SPECIAL CIRCUMSTANCES REGULATIONS.

The following findings shall be met in order to find that a Use Regulation is consistent under Special Circumstances with the compatibility matrix, Section 2050:

- a. The Use Regulation is consistent with the applicable community plan.
- b. The Use Regulation is consistent with, or applied under special circumstances in, the majority of Land Use Designations that border the subject parcel(s).
- c. The Use Regulation is compatible with the surrounding land uses, with consideration given to:
  1. Density or intensity of potential uses;
  2. Availability of public facilities, services and utilities;
  3. Harmony with the neighborhood character;
  4. Capacity and character of surrounding streets; and
  5. Any other relevant impact of the potential use.

- d. A General Plan Amendment to an appropriate Land Use Designation that would allow for the Use Regulation to be consistent and therefore not a special circumstance, is infeasible as determined by the Director after consideration of the General Plan and applicable Community Plan.
- e. Additionally, a study shall be submitted by the applicant that the proposed Use Regulation meets at least one of the following:
  - 1. There is a demonstrated need for the potential uses of the proposed Use Regulation and there is insufficient land suitably zoned in the Community Planning Area to meet the demonstrated need. Additionally, the application of the proposed Use Regulation would not result in a scarcity of the existing Use Regulation within the community planning area or;
  - 2. The site characteristics make it physically impossible to implement uses allowed with the existing Use Regulation. Such constraints may include, but are not limited to lot configuration, lot size, topography, drainage, adjacent land use, access, traffic congestion, noise, air pollution or other factors affecting health, safety or welfare.

The study submitted subject to e.1 or e.2 shall be reviewed by the Director and included as part of the rezone findings for consideration.

## RRO RECREATION ORIENTED RESIDENTIAL USE REGULATIONS

### 2220 INTENT.

The provisions of Section 2220 through Section 2229, inclusive, shall be known as the RRO Recreation Oriented Residential Use Regulations. The RRO Use Regulations are intended to create and enhance areas where recreationally-oriented residential development is desired. Typically, the RRO Use Regulations would be applied to rural and suburban areas where outdoor recreational use is desired as an important supportive feature of residential development. Various applications of the RRO Use Regulations with appropriate development designators can create areas of exclusively single-family development surrounding a lake or golf course, or a mix of single and multi-family dwellings in association with equestrian, tennis, or other recreational facilities. Certain non-recreational commercial uses may be permitted within the zone as long as they support the dominant residential recreational character of the area.

### 2221 SITE PLAN REVIEW REQUIRED.

All development within the RRO Recreation Oriented Residential Use Regulations, except the construction of 4 or less single-family dwellings or 2 or less two-family dwellings, shall require site plan review in accordance with the Site Plan Review Procedure commencing at Section 7150 and the following guidelines.

- a. Content of the Site Plan. A site plan required by this section shall contain such maps, plans, drawings, and sketches as are necessary to show:
  1. The location, size, height, use, general exterior design, and entrances and exits of all proposed buildings and structures, and their relationship to existing buildings and structures located on the development site.
  2. The location, size and use of all existing and proposed recreation facilities.
  3. The internal circulation plan of the development site, including the location, size and capacity of all roads and driveways, parking areas, pedestrian walkways, and bicycle paths, and the relationship of this plan to the existing circulation pattern of the area surrounding the development site.
  4. The location, size and type of all existing vegetation and all proposed landscaping.

2221

b. Relationship to Subdivision Ordinance.

Any Tentative Map or Tentative Parcel Map which is required by the Subdivision Ordinance shall be used to the maximum extent possible in satisfying the requirements of subsection "a" of this section.

c. Standards and Criteria.

The following standards and criteria shall be followed by the Director in his review and evaluation of a site plan required by this section.

1. The placement and siting of the existing and proposed buildings, structures, and recreation facilities, with respect to their uses and activities, shall functionally relate to each other and mutually support a residential recreation character.
2. The internal circulation plan shall provide adequate and convenient access to all buildings, structures, and recreation facilities located on the development site and shall give priority to pedestrian walkways and bicycle paths.
3. The internal circulation plan shall conform to and, where possible, strengthen the existing circulation pattern of the area surrounding the development site.
4. The proposed landscaping should be compatible with existing landscaping and should take into consideration the appropriateness of selected plant materials to the area. Landscaping and planting should be used to the maximum extent practical to screen unsightly parking, storage and utility areas. Landscaping and plantings should not obstruct significant views, either when installed or when they reach mature growth.

**2460 INTENT.**

The provisions of Section 2460 through Section 2469, inclusive, shall be known as the C46 Medical Center Use Regulations. The C46 Use Regulations are intended to create and enhance areas where a concentration of medical and other compatible uses is desired. Typically, the C46 Use Regulations would be applied to areas where there is a desire to discourage use by non-medical associated uses and where a community of a size sufficient to support a medical center exists or is planned. Various applications of the C46 Use Regulations, with appropriate development designators, can create major regional medical centers, including hospitals, medical office buildings, laboratories, and other supportive commercial and service facilities, or small community medical centers whose scale would more clearly reflect the needs of the immediate area.

(Renumbered by Ord. No. 5508 (N.S.) adopted 5-16-79. Formerly 2840)

**2461 SITE PLAN REVIEW REQUIRED.**

All development within the C46 Medical Center Use Regulations shall require site plan review in accordance with the Site Plan Review Procedure commencing at Section 7150 and the following guidelines.

  - 1. The overall physical design of the project, with respect to the interior placement and siting of buildings and structures, shall mitigate the adverse impacts of the development on the immediately surrounding area.
  - 2. The internal circulation plan shall provide adequate and convenient access to all buildings and structures contained within the development.
  - 3. The internal circulation plan shall conform to and, where possible, strengthen the existing circulation pattern of the area surrounding the development site.
  - 4. The proposed landscaping should be compatible with existing landscaping and should take into consideration the appropriateness of selected plant materials to the area. Landscaping and plantings should be used to the maximum extent practical to screen unsightly parking, storage and utility areas. ## M56 MIXED INDUSTRIAL USE REGULATIONS

### 2560 INTENT.

The provisions of Section 2550 through 2579, inclusive, shall be known as the M56 Mixed Industrial Use Regulations, (M56 Use Regulations). The M56 Use Regulations will create an industrial area, and a maximum of five percent of each lot to be designated as support commercial area. The right to develop a support commercial area shall be transferable. The M56 Use Regulations will generally be applied to large areas of 100 or more acres, where a unified appearance can be created. A Specific Plan will be required prior to or concurrent with each rezone to address the availability of public facilities. The types of uses in the M56 Use Regulations will include industrial plants that are primarily engaged in the manufacturing, compounding, processing, assembling, packaging, treatment, warehousing or fabrication of materials or products, and commercial use types necessary to support those uses. Site development will be reviewed for compliance with a Design review manual adopted for the area.

### 2561 SUPPORT COMMERCIAL AREA.

Support commercial areas shall be designated, and the transfer of the rights to develop support commercial area shall be subject to the following requirements.

- a. Designation of Commercial Area. Each lot in the specific plan area shall be granted a maximum of five percent of commercial use. At the time of application for a building permit, the applicant shall apply for an administrative permit indicating what portion of the site will be reserved for commercial use, and the location of the parking to be reserved for the use. If no area is designated through the administrative permit process at the time the lot is initially developed, the owner retains the right to make such designation at a later date. Additionally, the applicant may relinquish the permit at any time by making an application for relinquishment to the Director. When an applicant has either chosen not to use the right to develop the commercial area of the property or has relinquished the administrative permit to develop the area as a commercial use, the right may be transferred to another property through the process described in subsection b of this section.
- b. Transfer of Designated Commercial Area. Commercial development rights shall be transferable. Transfer shall only be to a site located within the contiguous area within which the M56 use regulation has been applied. The transfer shall not result in more than ten percent of any one site being utilized for support commercial development.

Prior to completing any transfers of development rights, the applicant shall obtain written approval from the Director. No purported transfer shall be of any force or effect without the Director's approval. The applicant shall notify the Department of the completion of the transfer on a form prescribed by the Department, and such notification shall be recorded. Failure to comply with the Department's requirements for notification shall be grounds for refusal to issue building permits.

(Amended by Ord. No. 10006 (N.S.) adopted 9-16-09)

**2569 SPECIFIC PLAN REQUIRED.**

The M56 Use Regulations may be made applicable to any property for which a Specific Plan has been adopted. Alternatively, the provisions of the M56 Use Regulations may be adopted as a part of any Specific Plan. The Specific Plan required by these regulations shall address the availability of public facilities, including but not limited to sewer, water, fire protection and roads.

Performance standards shall be included within the Specific Plan to assure that there are adequate public facilities to serve the proposed development. If the necessary facilities are not available, or are fully utilized according to the adopted performance standards, no further building permits shall be issued for any new or expanded commercial or industrial uses. In addition, the Specific Plan shall establish a maximum limit to the total area to be devoted to the support commercial uses. Said commercial uses shall not exceed, and may be less than the five percent that is otherwise allowed by the zone.

**2570 ADMINISTRATIVE DESIGN REVIEW REQUIRED.**

No permit of any type shall be issued for the construction or alteration of any building or structure, nor shall any person construct or alter a building or structure, nor shall any new use be established in areas subject to the M56 Use Regulations until an Administrative Design Review has been approved as conforming to the criteria of a Design Manual which has been adopted by the Board of Supervisors. Alterations to the interior of a structure which are not visible from the exterior of the structure are exempt from the requirement for review. An applicant may chose to submit a site plan rather than an administrative design review application if the project does not comply with the specific requirements of the Design Manual, but the applicant is of the opinion that the project does comply with the intent of the Design Manual. A separate manual shall be adopted for each separate area when the M56 Use Regulations are applied and shall

2570

reflect the concerns of that area. An existing Community Design Manual may be adopted to serve as the Design Manual. The Design Manual shall require the preservation of environmental resources that are identified as being significant, including wildlife habitat and open space.

**2571 WAIVER OF ADMINISTRATIVE DESIGN REVIEW.**

The administrative design review required by Section 2570 may be waived by the Director if it is determined that the nature of the proposed project is such that subjecting it to the review process would not materially contribute to the attainment of the objectives and guidelines set forth in the applicable Design Manual.

- a. In making a decision on waiver of an administrative design review due consideration shall be given to the recommendation of the Community Planning/Subregional Planning Group, Community Design Review Board or Property Owners Review Committee, whichever has been designated as the review body as required by Section 2572.
- b. The Director, upon receipt of a request for waiver of the administrative design review requirement, shall provide a copy of said request to the review body for their recommendation.

**2572 DESIGNATION BY BOARD OF SUPERVISORS OF REVIEW BODY.**

The Board of Supervisors shall designate a review body to review all applications for administrative design review. Such designation shall take place at such time as the M56 Use Regulations are applied to any specific properties. Where there is a Community Planning Group, Subregional Planning Group or Community Design Review Board, such group shall be designated as the review body unless that body agrees to the appointment of a Property Owners Review Committee and the Board of Supervisors so designates. Where there is no planning group or design review board, a Property Owners Review Committee shall be appointed. The number of members of such Property Owners Review Committee, their length of service and identities shall be at the discretion of the Board of Supervisors. The members shall be owners of property wholly or partly within the area affected by the M56 Use Regulations or shall be designated representatives of a property owner.

**2574 REVIEW OF APPLICATION BY THE DESIGNATED REVIEW BODY.**

The Department of Planning and Development Services, upon receipt of an application for administrative design review, shall provide a copy of said application to the designated review body for their comments. The review body shall have 30 days to review the application and respond with their recommendations.

(Amended by Ord. No. 10222 (N.S.) adopted 9-25-12. Opr. 11-26-12)

**2576 DECISION BY THE DIRECTOR ON ADMINISTRATIVE DESIGN REVIEW.**

The Director shall decide if the application complies with the requirements of the Design Manual and issue that decision within 60 days of the initial application. A denial of the application may be followed by an application for a site plan if the applicant feels that the overall intent of the design requirements can be met by the project without the project being in strict compliance with the requirements of the Design Manual.

**2578 APPEAL OF DIRECTOR'S DECISION.**

The Director's decision may be appealed pursuant to the appeal procedures commencing at Section 7200.

2580

M58 HIGH IMPACT INDUSTRIAL USE REGULATIONS

2580 INTENT.

The provisions of Section 2580 through Section 2589, inclusive, shall be known as the M58 High Impact Industrial Use Regulations. The M58 Use Regulations are intended to create and preserve areas where a full range of industrial uses with moderate to high nuisance characteristics may locate. Typically, the M58 Use Regulations would be applied at locations where large land acreages were available and where the impacts associated with unsightliness, noise, odor, and traffic, and the hazards associated with certain industrial uses, would not impact on residential or commercial areas. Various applications of the M58 Use Regulations with appropriate development designators can create major heavy industrial centers or an area for a single, large industrial use.

S94 TRANSPORTATION AND UTILITY CORRIDOR USE REGULATIONS

2940 INTENT.

The provisions of Section 2940 through 2949, inclusive, shall be known as the S94 Transportation and Utility Corridor Use Regulations. The S94 Use Regulations are intended to create and protect corridors for existing or future highways, railways, pipelines, other modes of transportation, and facilities for transmission of electricity, gas, water and other materials and forms of energy. The S94 Use Regulations are designed in recognition of the fact that transportation and utility facilities can cause adverse impacts on surrounding residents and properties including, for example, noise, vibration, emissions, pollutants, odors, visual appearance, detracting from natural scenic values, electrical interference, and potential for hazards and disasters. Some facilities can also be adversely affected by incompatible uses nearby. It is intended that these and other regulations be applied in a manner that will create sufficient open space or buffering along corridors to mitigate any adverse impacts of the facilities. The uses permitted are those which will not detract from the corridor's primary purpose, will not involve large, permanent concentrations of people, and will not adversely affect surrounding residents and properties. Various applications of the S94 Use Regulations with appropriate development designators can preserve future corridors while allowing appropriate interim uses, and permit suitable uses of land under powerlines, over buried pipelines, or alongside railroads or highways.
