Property Overview

This site consists of an existing $\pm 144,761$ square foot manufacturing building located on ± 11.73 acres, with an adjacent ± 10.72 acres to accommodate an additional fully designed and permitted $\pm 173,600$ square foot building.

These two industrial opportunities are located in the highly sought after Northern Nevada market. The Northern Nevada market continues to experience robust demand for industrial space. With close proximity to the 11 western states, this project is located along Highway 50, only 43 miles south of Interstate 80, which serves as a main East–West thoroughfare, and 12.4 miles east of Interstate 580, which serves as a main North–South arterial. This facility offers less than 1–day truck service to over 60 million people and 2–day truck service to 11 states, and five major ports.

In addition to the remarkable infrastructure, the project is nestled in the foothills of the Pine Nut Mountains and the nearby Dayton Valley Golf Course. With wild horses often roaming the neighborhood, this is an ideal setting for an industrial building.
