EQUIPMENT	Some included, some sold separately - please contact brokers for more information

This is a rare opportunity to acquire a fully operational reman mill and lumber yard situated on an expansive 18-acre parcel in Hoquiam, Washington. The property features industrial I-2 zoning and eight purpose-built buildings, including a 35,902 SF warehouse, three kilns, a planer mill, green chain, cooling shed, and dedicated lumber storage facilities.

The site is designed to support large-scale lumber processing and distribution, with substantial yard area, heavy power, and efficient circulation throughout the property. The configuration offers immediate operational functionality while also providing flexibility for future expansion or adaptation to related industrial uses. With direct highway access and a layout that supports both processing and outdoor storage, the property is well-suited for owner/users seeking a turnkey industrial campus.

Located in Grays Harbor, a region with deep roots in the timber and wood products industry, this property presents a compelling opportunity for established operators looking to own and control a strategically positioned facility in the Pacific Northwest.
