# GROWTH MARKET

JACKSONVILLE, FL

## #2 Industrial Markets with Investment Appeal in US

Jacksonville came in second. In addition to its strategic location, strong economic growth and expanding infrastructure, the city's population has surged to the point where it is now the 10th largest in the U.S. with growing private sector employment. The larger population has spurred demand for industrial spaces, especially in logistics and manufacturing. The expansion of the city's SSA port terminal is also expected to double its capacity by mid-2025, further stimulating industrial demand.

### POPULATION GROWTH

Jacksonville has experienced substantial population growth, becoming the 10th largest city in the U.S., which fuels demand for industrial and distribution facilities.

### E-COMMERCE GROWTH

Major e-commerce retailers like Amazon, Wayfair, and Frida Baby have recently expanded or added warehousing operations in Jacksonville.

### STRATEGIC LOCATION

The city's position at the crossroads of major highways, with easy access to ports and airports, makes it an ideal logistics and distribution hub.
