SoJo Health Center is a medical office investment offering durable in-place income with clear near-term upside through lease-up of remaining space at market rents. The property is anchored by established medical tenants on long-term NNN leases with 3% annual rent escalations, providing predictable cash flow and built-in income growth.

The building features high-quality medical buildouts throughout, minimizing future capital exposure and supporting strong tenant retention. Remaining suites are in final lease negotiation, positioning the asset for full stabilization in the near term and a transition from pro forma to stabilized cash flow.

The property benefits from ample parking, prominent signage, and immediate freeway access via completed Bangerter Highway improvements, enhancing tenant demand and long-term marketability across South Jordan and surrounding growth markets.

At stabilization, the asset is projected to generate approximately \$299,000 in NOI, supporting an attractive pro forma going-in cap rate with additional upside through contractual rent growth and future refinancings or disposition.
