10. **ADDITIONAL INFORMATION**

a. ATTACHMENT EXPLAINING CURRENT PROBLEMS, PAST REPAIRS, OR ADDITIONAL INFORMATION?

Yes No

b. ADDITIONAL COMMENTS:

The two shower bathrooms in the south wing were completely remodeled in 2024. In the spring of 2025 the building was completely remediated for mold by Alpine Environmental Services. The few places in the interior that had mold were cut away and the area completely cleaned. The attic at the south end of the house was thoroughly cleaned and new insulation installed. On the exterior, the old siding, plywood, and insulation was removed. Any damaged studs were replaced and the area thoroughly cleaned.

Brand new windows, doors, and siding were installed in the summer of 2025. The exterior electric was redone, with new porch lights installed. A new kitchen sink/counter/cupboard was installed in January, 2026. The entire interior, with the exception of the library and some ceilings, was also freshly painted in January 2026.

We were given two recommendations, which have not been done yet, to prevent a reoccurrence of mold: dig a French drain around the building because of the moisture from the hill, and install an ERV with air conditioning.
