THE OVERVIEW

PROPERTY SUMMARY

Midway Medical Plaza presents an attractive value-add medical office development opportunity in Carolina Forest, one of the fastest-growing submarkets within Myrtle Beach. The 31,000 SF, two-story building is partially complete, with 5,000 SF already built out and occupied by a prominent physician group, providing immediate in-place cash flow and third-party validation of the location and medical demand. The balance of the building is delivered as cold shell, creating a clear and controllable path to value through phased medical build-out and lease-up. The site offers a strong ability for 5.0/1,000 parking ratio and sits within an established medical corridor, benefiting from accelerating residential growth, physician migration, and continued shift toward outpatient care. * OM coming soon
