BUILDING DESCRIPTION

EASTGATE METROPLEX

1,016,500 RSF

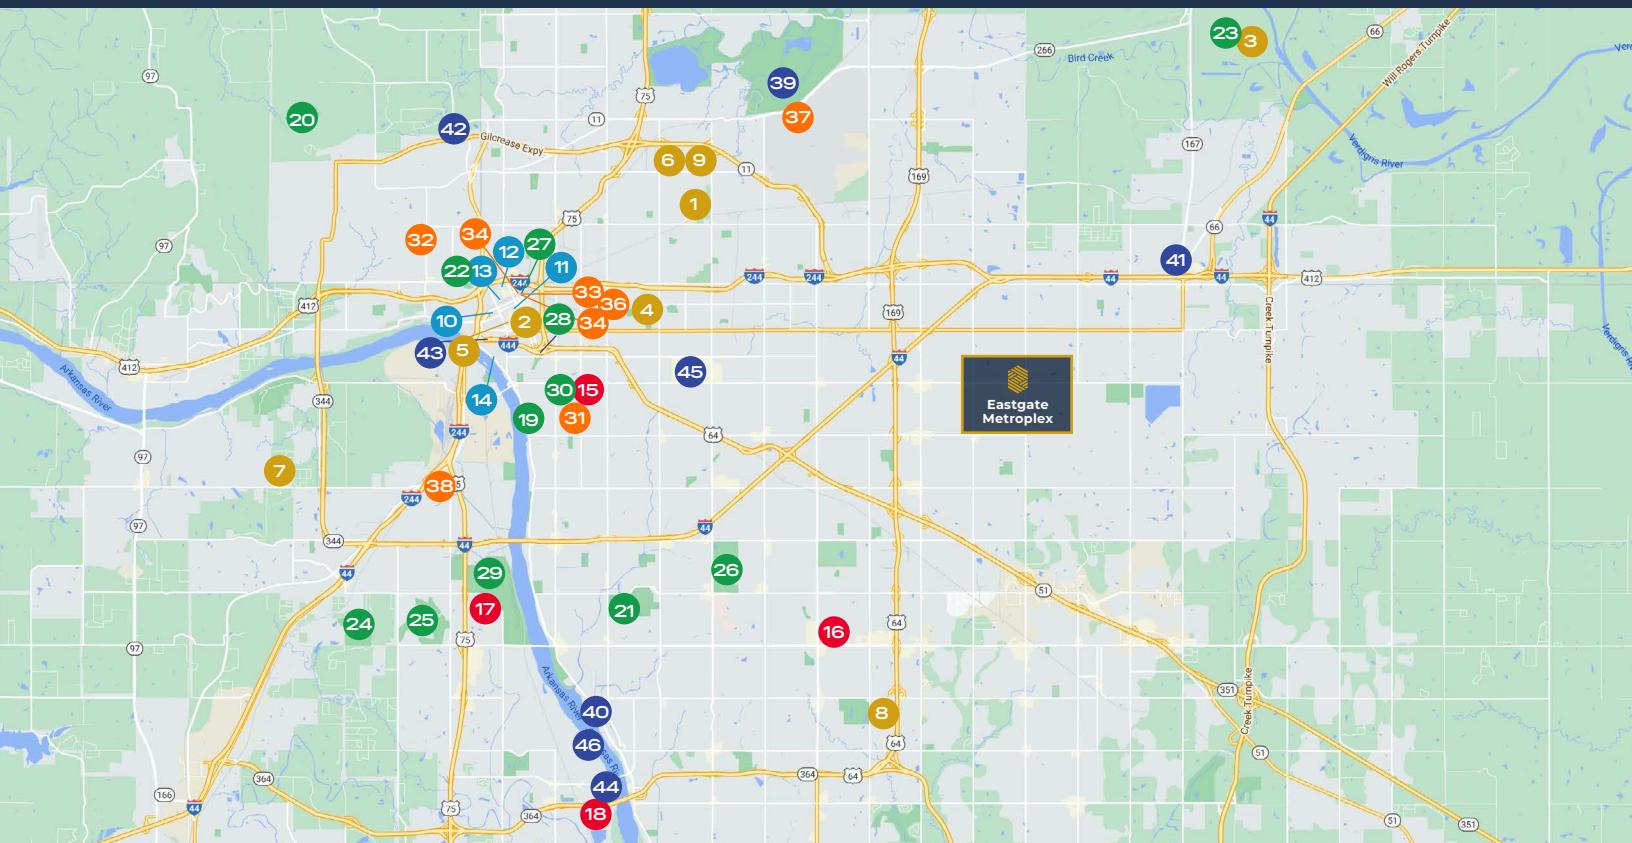

[VIEW GOOGLE MAPS](#)

Eastgate Metroplex, a former mall, is now a thriving mixed-use complex in Tulsa, Oklahoma. Originally constructed in 1986, the property underwent significant repositioning in 2007, and is continually being renovated and updated. The property transformation caters to large tenants seeking spacious, open floor plans and ample parking. Boasting over 1,000,000 square feet, the complex's extensive amenities have attracted several Fortune 100 companies.

Public Transportation

Eastgate Metroplex is easily accessible by multiple bus routes that stretch across the city.

The bus stop is immediately in front of the complex, making the commute to work seamless.

WHY TULSA?

Incredible Value

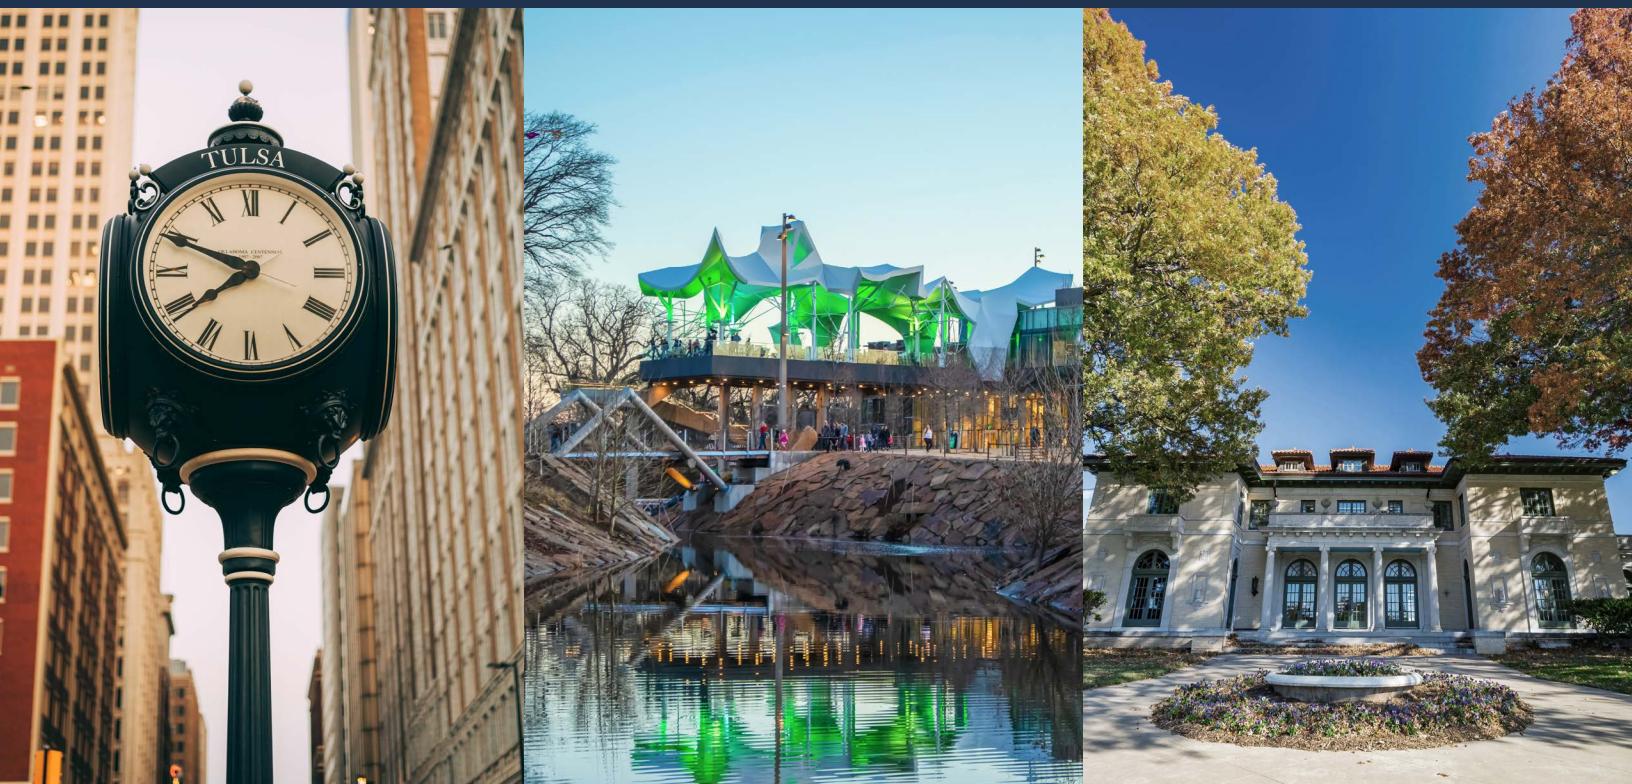

With just over one million residents, the Tulsa metropolitan area continues to see steady growth. The City of Tulsa has invested over \$884 million in public safety, economic development, education, health care and other capital improvements to make Tulsa a world-class city where people want to live. Tulsa has a dynamic economy, supported by a workforce of just over 500,000 people. The trade, transportation and utility industries dominate the market, but education, health, business and government also play significant roles. At \$62 billion, Tulsa's GDP value is in the top 100 in the nation.

The Tulsa office market remained healthy in 2023 and 2024, with a 13.6% vacancy rate in the first half of 2024 and 14.2% in the second half. Net absorption rose from 92,975 SF in the first half to 487,031 SF in the second half, driven by the lack of vacancy and occupied properties. New construction has dwindled since 2022, with only 50,000 SF delivered in the first half of 2024 and no new deliveries in the second half.
