RARE FIND! MIDTOWN PROPERTY IN A FEDERAL OPPORTUNITY ZONE

Turton Commercial Real Estate is pleased to present the rare opportunity to purchase 1700 I Street, a standalone historic mixed-use property in the heart of Midtown Sacramento. Located in a Federal Opportunity Zone, this architecturally unique building features a +/- 17,418 square foot two (2) story building, with an adjacent +/- 13,199 square foot parking lot on a separate parcel.

The Property is being offered at \$3,495,000, or ± \$200 per square foot. Currently ± 21% vacant and with some of the existing rents sitting below market, there is significant upside for potential investor simply by stabilizing the asset; leasing the vacant ground floor space, bringing existing tenants closer to market rents upon renewal, and appropriately monetizing the surface parking will all contribute

to a healthier NOI and dramatically improve capitalized value with minimal investment. Further, the property's Opportunity Zone designation should allow an investor substantial tax savings on realized gains upon exit, assuming they are willing to hold the asset for ten years and improve it according to Federal Tax Code requirements.

OPPORTUNITY ZONES

The Property is situated within an Opportunity Zone, an economic development tool added to the tax code by the Tax Cuts and Jobs Act of 2017. The tool, which was created to spur development in underserved communities, provides attractive capital gains deferral for qualifying properties. While the program was designed to help under-

served and blighted communities, the legislature also extended the zones in growing and robust markets, such as Midtown, Sacramento. As such, an investor can realize the tax benefits of the Opportunity Zone, but with little risk or downside, because the project is located in the epicenter of Midtown.

To qualify for the tax benefits, an Opportunity Zone investor must make improvements to the property equal in cost to the acquisition price within 30 months. Whether the buyer redevelops the existing building or constructs a new building on the land, the influx of new capital into the project will surely match the acquisition price,
