Neighborhood Center 2 (NC-2) District.

The NC-2 district, like the NC-1 district, is intended to create through redevelopment a more urban character that combines residential and commercial uses in an integrated fashion even though the development occurs over an extended time. The NC-2 district differs from the NC-1 district by requiring a larger lot size that would provide sufficient area to allow adequate parking and buffers to residential areas. Because of the larger lot size, limited commercial uses oriented to automobiles are permitted.
