ZONING

Community Commercial Zoning Districts. The Community Commercial Zoning Districts provide medium scale uses that serve an entire community, including those who arrive by automobile, and which may require buffering to ensure compatibility with adjacent residential neighborhoods. These districts are located on major or minor arterials, located on larger lot sizes and adjoining larger scale residential neighborhood uses or are buffered from smaller scale residential neighborhoods. The Community Pedestrian-Oriented (CCP) District permits retail and service uses with a development character intended to encourage pedestrian activity with buildings built to the street property line and parking is to the side or the rear.
